A BOY'S WANDERINGS.
A juvenile, picked up on Sunday morning about 1 o'clock in Paradise Row, was brought before the sitting magistrate this morning for investigation. He told a tale which sounded like an adventure story rather than a series of events in ordinary life. His place of residence, he said, was Portland, Me., where he lived about a month with his brother, having gone there from Lewiston, Me., where his parents lived. He said he left Portland about a month ago following a circus which took in Prince Edward Island, Sackville, Moncton and St. John. He said he came here from Moncton with four men in a box car and was hopeful of getting back to Portland from here. Most of the time he spent without a cent in his pocket, begging his meals from houses and riding the rails from town to town. He had a badly broken finger, which he said was hurt about a month ago in a potato planter. The sitting magistrate ordered him looked after until the immigration authorities could be informed of the case and could act on it. He suggested that the boy be taken to the hospital to have his finger treated.

\$1,000 DAMAGE DONE BY FERRY

Commissioner Bullock Presents Report of Saturday's Accident

Residents of Streets in Valley Section Ask for Surface Improvement—Complaint of Land Lease in Fairville—Tenders for Scrap Iron and Birch Opened.

Although a detailed estimate has not been completed the damage done to the boat and wharf by a collision of the ferry steamer Governor Carleton with the west side dock on Saturday, repairs will amount to at least \$1,000, so Commissioner Bullock said, reporting the accident to this morning's committee meeting of the common council.

The commissioner presented a report from the ferry superintendent, George Waring, in which he stated that the accident took place on the 4.20 trip. J. French, who was in charge of the boat, he said, got his sleeve caught in the telegraph instrument, causing it to signal full steam ahead instead of astern. Mr. French, he said, assumed full responsibility. Mr. Waring said the Mr. French was temporarily in charge, but was experienced in the work and had never had a previous accident. The report was ordered received.

Commissioner Frink presided in the absence of the mayor. Commissioner Thornton was also absent, having gone to Halifax on Saturday.

Dr. Frink presented a petition from the residents of Summer street, asking that the surface of that street be improved. The petition stated that there were several depressions in the street since the renewal of the water main there some years ago; that a large sewer manhole cover and gas and water turnoffs were projecting. The petitioners claimed that no repairs had been put on the street for twelve years.

Commissioner Frink said that he had also petitions of similar tenor from the residents of Winter, Spring and Wright streets. He said that when City road was being paved considerable material was placed in Summer street and the surface improved. Three and a half miles of road had been done last year, but he said that there were some ten miles more which needed attention. He reported that the residence of Summer street had expressed appreciation of repairs done to the street in 1920, but had evidently forgotten it.

Commissioner Wigmore said he would investigate in connection with the projection of the manhole and turnoffs as well as the depressions over the water line. The petition was referred to the commissioner of public works for report.

Authority was given to Commissioner Wigmore to call for tenders for a supply of 24, 16, 12, 10, 8 and 6 inch gate valves. Complaint from Fairville.

Mrs. J. J. Goldie, Church avenue, Fairville, was present to object to the lease of land by the city to Andrew Campbell, adjoining her property, and on which he intends to erect a coal shed. She said that her property had been improved recently and that the coal depot would prove a nuisance. She offered either to lease or buy the lot in question.

Commissioner Frink said that the same condition often was reported in the city. Commissioner Bullock reported that arrangements had already been completed to lease the lot to Mr. Campbell, who had made a deposit for it.

The acting mayor suggested that Mrs. Goldie try to come to some understanding with Mr. Campbell.

Tenders for 100,000 feet birch timber for the harbor department were read as follows:—

J. A. Garson & Co., \$12.25 a ton (no check, tender rejected); Garson Co., Ltd., \$12.50; Union Foundry & Machine Works, \$16; Dominion Metal Co., \$16.50; Myer Cohen, \$16.75.

On motion of Commissioner Wigmore the tenders of the Dominion Metal Co., was ordered accepted.

ALL NEEDED NOW IS GOOD WEATHER

Promise of Notable Afternoon of Aquatic Events Next Saturday.

Everything points to a wonderful day at Lily Lake on Saturday if the weather man has fully recovered from his gloomy spell and will shine on the city for the big day's swimming, diving, rowing and canoe races being staged on the lake under the direction of Frank White. The programme is complete and those in charge are confident that the day will be a big success.

The ten swimming and diving champions are expected to arrive in the city on Thursday. This list includes Miss Alice Riggs, Olympic diving champion; Miss Helen Meaney, national and metropolitan high diving champion; Miss Gertrude Eperle, junior national 220-yard champion; Miss Ethel Baker, 300-yard champion; Miss Frances Driscoll, 100-yard title holder; Louis Balbach, former world's champion; and Joe Moore, Canadian skating champion.

That the people will see these stars in serious competition is assured by the fact that valuable prizes are offered for each event, and they will be after records. Events are open to anyone in the maritime provinces, and entries will close tomorrow for the swimming, rowing and canoe events.

An added attraction will be the presence of Hilton Belyes, who will be seen in action on the lake.

The arrangements are in the hands of Frank White, assisted by Elmer Ingraham and Fred Logan, and all are confident that the day will be a success. Tags are being sold by the Pythian Sisters to help defray the heavy expenses.
