TO MAKE SURVEY OF INDUSTRIES OF THE WORLD

Hoover to Develop Program Approved by President at Cotton Growers' Request—Work Has Already Begun

Washington, March 30.—Plans for a survey of world production and consumption and the gathering of figures on visible stocks of all commodities are under consideration by federal officials. The department of commerce is now trying to obtain the figures on cotton and leather. The programme has been approved by President Harding as a result of representations made by cotton producers, and has been passed on to Secretary Hoover to develop.

The purpose is to supply American commerce and agriculture with facts and figures concerning the world markets of the present and future. Mr. Hoover said tonight. To provide a sound basis for producing and trading, he said, it was important that the world conditions be definitely known. He added that statistics on American production and stock were not sufficiently complete, but offered a foundation from which to work.

Cotton interests are understood to have held that a reduction in acreage was inevitable next year should the world stocks of cotton anywhere near as great as indicated.

It is not the intention, however, to launch into a programme of obtaining statistics on all commodities at this time. Mr. Hoover believed the need was apparent, but said his department was handicapped by lack of personnel and other facilities. For the present, it is proposed to gather the data through American diplomatic offices and trade representatives abroad.

The suggestion has been made to commerce officials also that the new "contract" committees which Mr. Hoover is organizing lend their efforts to determining foreign production and consumption. Mr. Hoover expects to have fifteen of these committees from various important lines of commercial activity sent on an advisory capacity with him. Various Chambers of Commerce and statistical divisions of executive departments may be utilized in the work.

HUGE INTERESTS OF STIMNES MAKE HIM POWER IN GERMANY

Is Leading Industrial Magistrate, Trader, Financier—Owns Sixty Newspapers.

London, March 30.—(By mail)—Hugo Stinnes, generalissimo of German industry, recently accused of plotting a strike of several hundred thousand workers in the Ruhr district to make more difficult the Allied occupation of Düsseldorf, Duisburg and Ruhrort, is referred to by the Berlin correspondent of the Times as an earnest and dangerous patriot.

Stinnes, a multi-millionaire member of the Reichstag, has put through some of the greatest financial deals of his career since the armistice. He has been called "a relentless efficient human calculating machine." It has been said that he would sacrifice every mark of his enormous fortune to bring back the monarchy.

Mine owner and coal merchant, ship owner, landed proprietor, head of a great chain of newspapers, proprietor of the very finest hotel in Berlin, trader in oil, paper, hides, jute, peat and manufactured wares of many kinds, Stinnes, the Times correspondent says, "is today the wealthiest, most influential, best known and at the same time the least well known man in Germany."

Publicity and notoriety are alien to him, it is stated, and he prefers to remain behind the curtains in the Reichstag, permitting his henchmen and lieutenants to do the talking while he pulls the strings.

Inconspicuous Figure.

"There is nothing in his appearance to betray the man of genius," says the correspondent. "Just fifty years old, of medium weight and sturdy built, with black hair and beard that show up strongly against a rather narrow complexion. Hugo Stinnes is an inconspicuous figure as he slips in and out of the Adlon Hotel, his bowler hat tilted slightly on one side, one hand in his pocket and one or two secretaries following hard on the heels of his chief. He stops to speak to no one. He has no time for small talk in the lounge with other guests. He is a relentlessly efficient, cool, human, calculating machine."

The foundations of the Stinnes' fortune were laid by the present Stinnes' grandfather and increased by his father. The youth was sent to a gymnasium and later worked as a miner and attended the School of Mines in Berlin. Embarking in business for himself at the age of twenty-three, his remarkable career began. He went with success into the coal and iron trade, becoming a prominent figure among the magnates of Rhenish Westphalia and branched out into the development of tramways and electric power in the coal fields.

But his "great spirit" fortune," says the Times, "came with the great war."

"His fortune before the war was estimated at 10,000,000 gold marks. What it is now he could not say himself."

Stinnes is now owned by Stinnes are said to number at least sixty.

"People are eagerly asking with what ultimate object all this colossal wealth is being incessantly piled up," says the Times correspondent. "Does his pres-

ent association with and financing of the Volkshaus meant that Stinnes was preparing to bring back the monarchy?

"Stinnes," concludes the correspondent, "is the alleged trustee of the conference of the financiers at the Brussels Financial Conference, "has measured himself once with the Allied occupation of Düsseldorf, Duisburg and Ruhrort, is referred to by the Berlin correspondent of the Times as an earnest and dangerous patriot."

Cause of Early Old Age

The celebrated Dr. Michenoff, an authority on early old age, says that it is "caused by poisons generated in the intestines. When your stomach digests food properly, it is absorbed without forming poisons. But if it is not, poisons are formed on early old age and premature death. 15 to 30 drops of 'Selge's Syrup' after meals makes your digestion sound."

HEARTBURN LIVER TROUBLE

When the liver becomes torpid and inflamed, it cannot furnish sufficient bile to the bowels, thus causing them to become constipated.

The stomach is also affected. In the case of heartburn there is a gnawing and burning pain in the stomach, attended by disturbed appetite, caused by great acidity. Whenever too much food is taken, it is liable to ferment, and become extremely sour, vomiting often occurs, and what is thrown up is sour and sometimes bitter.

Other liver trouble symptoms are pain under the right shoulder, yellowness of the skin and eyes, floating specks before the eyes, coated tongue, bad taste in the morning, foul breath, water brash, jaundice, constipation, etc.

Keep your liver active by using Milburn's Laxa-Liver Pills and you will have no heartburn or other liver troubles. Being purely vegetable they do not grip, irritate or sicken like the old-fashioned purgatives generally do.

Mrs. Mary Strone, Glasnevin, Sask., writes—"I have used Milburn's Laxa-Liver Pills, and they have cleared me of heartburn and liver trouble. I don't think they can be beaten by any other medicine, and I can highly recommend them."
