Rothesay Wins Cup.

The Interscholastic meet held at Rothesay Saturday afternoon between athletic teams from the St. John High School and Rothesay Collegiate school was very interesting and keenly contested, despite the fact that it was rather one sided. The Rothesay boys won by a total of 74 1-2 points to 14 1-2. Their victory not only marks them proving all the German newspapers. In trans-

ing blunder in an account of Baron von Richthefen's death which was published in all the German newspapers. In transport of the magnificent silver trophy put up by the St. John High School Alumnae.

Weather conditions were ideal for the meet and hundreds of visitors were present to witness the sports. Flewelling of Rothesay College was the individual star and won 28 1-2 points for his Alma Mater. He succeeded in establishing a new record for the shot put when he heaved it 38 feet three inches, one foot and eleven inches better than the record. He could have done much better in the sprint events, but seemed desirous of sharing the honors with team mates.

100 yards dash—Cudlip, Rothesay, 1st; Flewelling, Rothesay, 2nd; L. Diago, Rothesay, 8rd. Time—10 4-5 seconds. High jump—L. Diago, Rothesay, 1st; Coster, St. John, 2nd. Five feet one inch.

The news report attributed the shooting down of Von Richthofen to Gunner Lewis, and a number of German newspapers have helped the gallant gunner to widespread fame. To whoever the honor or of Richthofen's defeat belongs, it certainly is not Gunner Lewis, for he owed his existence only to a mistake in the translation, and the bullet was fired by a Lewis gun.

"Gunner Lewis, however, will adorn a modest place in the history of the war, where he will be able to converse about the dangers of too rapid translation with the dangers of the war, where he will be able to converse about the dangers of the war.

inch.

The events and the winners follow, five points allowed for first place, three for second and one for third:

the dangers of too rapid translation with "General Staff," who was one of the famous German newspaper blunders of the war of 1870."

London, June 8—The shortage of metals in Germany continues to give anxiety to the authorities there. The demand does not seem to have been met by the capture of "booty" about which so much has been said in the German communiques. The Germans appear to have taken the stories of the war lords so little. erally that the authorities responsible for the metal supply have had to issue an official statement on the matter. It

"It is a mistake to imagine that large captures of raw materials during cur offensive in the west could in any way interfere with the mobilization of these metals which can be spared. The reports about this great booty could not be based upon accurate assessment, but resulted from a high estimate. The metal which is to be confiscated does not merely to the army, but has to satisfy whole needs of the war. The navy,

he railways, the post and our war in-iustry in the widest sense, have to be provided for."

The official statement adds gloomily that the demand for these "precious metals" especially copper, continues to be so great that it has been necessary to issue new "confiscation" orders.

"HEADIN' SOUTH," is an exceptional Fairbanks production, and is full of action from start to finish. In addition to the scenes photographed in Arizona, including the forest of giant cactus, two western villages were reproduced at the California studios at great expense. Because of the peculiar photographic effects necessary, requiring the aid of all sorts of electrical apparatus, director Art Rosson ordered the building of these two complete villages.

OFFICIAL ENGLISH.

The following letter, written in "perfect departmental style," which has been sent to a matron of a small auxiliary hospital, in England, has been sent by the latter to the Times:

"The attached Army Form B.178 is returned to you for favor of disposal in accordance with the instructions. ccordance with the instruction accordance with the instructions contained in Appendix 77 of A.C.I. 455 of 1917 (d) and (f), as amended by A.C.I. 23 of 1918—namely, to the officer commanding as named in the schedule to general instructions 2, issued with A. C. I. 40 of 1918-i.e., the officer commanding the depot."
"So far as I can make out," adds the matron, "the translation into commercial English is as follows: 'Attached

form should have been sent to the of-ficer commanding the depot."

An oil film floating on the Passaic river near Kearny, N. J., ignited, covering the stream with fire for a distance urning scows and setting a bridge afire.
