This is Majority Ruling of Grand Trunk Arbitration Board—Hon. W. H. Taft Dissents.

Ottawa, Sept. 7.—Rendering judgment today, the Grand Trunk board of arbitration decided, by a majority ruling, that the common stock of the Grand Trunk Railway was worth nothing.

The board was appointed to determine the value, if any, of such stock, and the price at which it was to be acquired by the government in taking over the road. The stock has a par value of \$37,073,402. The majority ruling was rendered by Sir Walter Cassels, chairman of the board and Sir Thomas White, arbitrator for the government. Hon. W. H. Taft, arbitrator for the Grand Trunk presented a dissenting judgment.

### FINDS "KULTUR" SURVIVES.

Prof. Boodin Says Germans Hope for British-French Break.

London, Sept. 7.—There are many in Germany who think that a "trial of military strength" between Great Britain and France is not far distant if they should cease to co-operate, it is declared by John E. Boodin, professor of Philosophy at Carleton College, Minnesota, in an interview published in The London Times.

Professor Boodin has been visiting Germany, and while there attended University Week at Leipzig. He also attended the trial of some of the "war criminals" there. In his opinion the old spirit of German "Kultur" still lives in the educated circles of Germany. He says that in conversations with Germans of the university class he found a general hope that there may be in the near future a rift between Great Britain and France, which will enable Germany to deal with France also.

## ST. JOHN GIRL TELLS OF KIDNAPPING

(Continued from page 1.)

She said the man wore a light grey suit with a straw hat. She said he was of dark complexion and drove a large green car.  
She could not remember whether or not there were two in the automobile at the time, but thinks there was either a man or a woman with the driver when she was first picked up. She did not recall having a hand or anything else placed over her mouth, but she remembered that she was inside the car and tried to scream, but was unable to move. She said she would know the man again if she ever sees him.  
Her mother explained that she had no fear for her daughter's safety when she left the house as she was to meet her girl chum at the exhibition and at 7 o'clock was to wait at the head of the stairs at the main entrance for an older sister who was to take her home. She said it is getting to be a nice story of affairs if a girl fourteen years of age could not walk the principal streets of St. John in broad daylight.

### Fredericton Report.

Fredericton, N. B., Sept. 7.—The Fredericton Police to whom Geraldine Mitchell told a startling story of kidnapping this afternoon had obtained no trace of the car in which the girl says she was abducted here. According to the girl's story she left the car on the first cross-road on the hill south of the city and made her way into the city by Poor House road and York street. No trace of the car has been found nor of any other person who saw it.  
The girl early in the afternoon entered the City Hall and told her story to City Engineer McDowell who took her to Chief of Police Finley. She was in a very nervous condition and laboring under marked excitement. She told Chief Finley that a few weeks before, a man had stopped his car near her home in St. John and asked her to go driving. She had refused, although urged by the man.  
The girl said she was not molested. She said she left the car because she was afraid of "that man," who might kill her like the McAuley girl was killed.

(Canadian Press)

Fredericton, N. B., Sept. 7.—Little Geraldine Mitchell, the 14 year old St. John girl who disappeared from St. John on Monday afternoon and reappeared here yesterday afternoon, when she reached city hall and reported having awakened a few minutes before to find herself in an empty automobile on York street extension some distance from the C. P. R. station at the rear of the city, was taken back to St. John this morning by Miss Ross, police matron, who came here from St. John for the purpose. According to the girl's statement the car appears to be a light-colored and during abduction by white slavers, but the only clue they have of value is that the automobile was painted green and a rather incomplete description of one of her two male abductors given by the girl he said he had seen that one of them told her he was going to take her "into the states." The girl's story, to which she rigidly adhered during a long questioning by Chief Police Finley, leaves little doubt but that during "white slave" traders have embraced New Brunswick in their sphere of operations and evidently look upon the fall fair season as an opportune time.

### DR. KELLY WINS CASE

Judgment by Judge Armstrong—Another Medical Case Settled.

Judgment was given by His Honor Judge Armstrong yesterday in the county court in the matter of Kelly vs. McGoldrick, an action to recover \$98 for medical attendance. The attendance was not disputed but it was contended by the defence that the plaintiff, Dr. C. C. Kelly had shown negligence. The defendant had had a festered finger which had been amputated. The plaintiff prayed that he had advised amputation but his advice had not been taken, the defendant refusing. Another physician was called and he agreed that amputation should be made, which was done. Judgment was given for Dr. Kelly for the amount claimed, with costs. G. H. V. Belyea, K.C., appeared for the plaintiff and L. A. Conlon for the defendant.  
Another case in which medical and surgical attendance was an issue was the matter of Bishop vs. Collins, an action by Dr. T. E. Bishop against J. L. Collins for \$145. After evidence had been given by the plaintiff and Dr. L. M. Curran in connection with an operation for appendicitis, the case was withdrawn and a settlement made by the defence. G. H. V. Belyea, K.C., appeared for the plaintiff, and K. A. Wilson for the defence.

## TRADE CONGRESS WANTS RELIEF FOR THE UNEMPLOYED

Ask Government to Summon Parliament and Take Up Question.

Urges Face to Face Discussion of Irish Problems—Against Resumption of Warfare in Green Isle.

Cardiff, Wales, Sept. 7.—The trades union congress at the end of a long debate adopted unanimously an emergency resolution demanding that the government invite representatives of the unemployed and introduce practical schemes for relief of the unemployed.

The congress also adopted a resolution approving the efforts of the various boards of guardians, including that of Poplar, which had attempted, in the absence of proper government assistance, to give adequate relief to the unemployed.

The parliamentary committee of the Trades Union Congress and the National executive of the labor party in joint meeting decided to send a telegram to Mr. Lloyd George urging the government to invite representatives of the Irish people to meet them face to face in conference, and declaring that it would be a disaster if the deep and spontaneous feeling for peace now pervading the two peoples was allowed to evaporate while their representatives engaged in a controversy by exchange of notes.  
The telegram further declares that the labor movement must resist to the utmost further reference to arbitration by force and that resumption of warfare in Ireland would outrage the moral sense of the whole world and would never receive the sanction of the English people.  
London, Sept. 7.—(Canadian Press.)—The congress of British trades unions at Cardiff has taken under discussion the expulsion of the English people from the north of Ireland. Representatives of the expelled men said that the number so expelled was at least 5,000. The spokesmen alleged that "Irishizing" English politicians were behind the Belfast troubles. It was not a question, they said, of Protestants expelling Catholics, but the expulsion of a worker who openly opposed "Carson's ascendancy gang."

A congress carried unanimously a resolution instructing the parliamentary committee to take immediate steps to safeguard the interests of workers denied the right to work in Belfast.

## DON'T LIKE WAY THEIR HUSBANDS ARE FED IN JAIL

Wives of Poplar Councillors Tell Reporters About It—Three More Arrested.

London, Sept. 7.—(Canadian Press.)—The wives of the councillors of the Borough of Poplar, who have been imprisoned following their refusal to make the metropolitan tax levies, are very laconic with the press representatives concerning the "sufferings" of their husbands at Brixton prison.

When three of these women, including the wife of the mayor, visited the prison yesterday they found, to their surprise that their three husbands had been removed to the infirmary. The condition of the men was attributed to "violent change of diet."

The most indignant of the three women was the wife of an imprisoned councillor who is a doctor by trade. She said that her husband, who is accustomed to substantial dinners, is now forced to exist on porridge, cocoa and a few solids.

Three more councillors were arrested yesterday. The wife of one of them, when interviewed, said: "The sheriff officers came at six-thirty this morning when my husband and myself were asleep. My husband said to the officers: 'You are a bit early. I have had breakfast. So he breakfasted, repaired the children's boots and did other odd jobs, keeping the officers waiting about three hours.'"

The list fell back before noon, however, American Sugar receding almost three points with heaviness in Utah Copper and Mercantile Marine preferred.
