

News Summary.

Mrs. Thomas Keating, of St. George, while removing a kettle of boiling water from the stove fell and was badly scalded on her arms and part of her body.

Part of one of the boilers of the river steamer T. C. Walker, which left San Francisco Saturday night, was blown out, killing five and dangerously wounding eleven persons.

One of the I. C. R.'s new ten-ton engines from the Kingston, Ontario, works has just arrived at Moncton. Another is expected in a few days. Six others are building; also three narrow-gauge engines for the I. E. Island road.

At Moncton, Wednesday, Duncan Stevenson was fined \$25 for pointing a pistol at Mrs. Pearson, of Louisville, while levying on a sewing machine. Stevenson declared it was only a toy pistol, and that he pointed it in self-defence, as Mrs. Pearson threatened to scold his heart out.

Mrs. Taggart, who was so brutally beaten by her husband at Toronto last Friday morning, died on Saturday. Taggart is held on the charge of murder. The prisoner's only excuse is that his wife had an order of separation from him.

The government of Japan entered a formal protest at Ottawa against the act of the British Columbia Legislature passed last spring prohibiting the Japanese, as well as the Chinese, from working in connection with any enterprise authorized under the provincial statute.

John Negus, jr., of Pollet River, Westmorland county, on the 22nd inst., was working at the lathe machine in the saw mill of Trueman Jones when a bolt flew and struck him in the stomach, causing an internal injury. He died on Friday, leaving a wife and five small children.

A plot to assassinate Prince Ferdinand of Bulgaria has been discovered at Sofia. It is added that arrests have been made. Prince Ferdinand of Bulgaria was born February 26, 1861, and was elected Prince of Bulgaria by unanimous vote of the national assembly on July 7, 1887.

A Missouri Pacific passenger train which left St. Joseph yesterday was held up near Sedalia by three masked men, one of whom, Jim West, an engineer in the company's employ, was captured, while a second is believed to have been wounded, and the third escaped. The company had been apprised of the intended hold-up, and were prepared for it.

German military authorities have found employment for the Meunonite private who refused to bear arms through conscientious scruples by assigning him to the company of laborers at Magdeburg. They had tested his religious convictions previously by keeping him in prison for nearly three years on charges of insubordination.

India's tale of persons killed by wild animals and snakes in 1897 is 4,277 of the former and 20,959 of the latter. Nearly a thousand persons more were killed by wild beasts than in the preceding year, owing, it is reported, to the famine, which drove people into the jungle, while the scarcity of water also forced tigers into the open country.

Drunkness having made alarming strides in New Zealand, it has been resolved to call in the aid of photography to put it down. In future, any one who may be condemned on the charge of being drunk and disorderly will have to have his photograph taken at his own expense, and distribute it among all innkeepers, barkeepers, etc. The idea is that publicans will then be able to refuse to serve anyone whose portrait appears in this original gallery.

The Youth's Companion promises to surpass itself during the coming year. Those who read it during 1899 will be introduced to the foremost novelists, explorers, naval officers, poets and men of science in England and the United States. They will be "personally conducted," as it were, into the heart of Africa by Henry M. Stanley; into the Arctic Seas by such explorers as Peary, Greeley and Markham, and into spy-ridden Russia by Poultney Bigelow. General Grant, Harriet Beecher Stowe, Robert Louis Stevenson, General Fremont and other celebrities will be presented to them through the medium of anecdotal portraits drawn by their sons, or daughters, or intimate friends. The best of all story-writers, including Stockton, Howells, Bret Harte, William Black, James Payn, Sarah Orne Jewett and Mary E. Wilkins, will entertain them, and profitable advice on the choice of a career, the care of children and other subjects will be given by such authorities as Sir Clements Markham (President of the Royal Geographical Society), the Right Hon. James Bryce, Dr. Mary Putnam Jacobi and the President of the Art Students' League. Among the other contributors will be Rev. Dr. E. H. Hale, The Secretary of the Navy, The Hon. Carl Schurz, Andrew Lang, The Marquis of Dufferin and The Marquis of Lorne.

The Present Month of the Closing Year Must End the Lives of Many if they Fail to Banish Disease.

Paine's Celery Compound, Earth's Great Medical Prescription, "Makes Sick People Well."

Another short month and the year 1898 will come to a close. As the year ends, many loved and dear ones will pass away, severing ties and association that will bring untold sorrow, agony and mourning. The victims will come from all classes and conditions of our population.

While it is true we must all leave this transitory life, it ought to be well understood that our years of life on earth should be threescore and ten or fourscore years.

When young and middle aged men and women fail to reach a good old age, the fault is theirs in ninety cases out of every hundred. It is safe to assert they have violated the laws of nature and have allowed disease to enchain them.

Years ago the attention of that celebrated medical expert, Dr. Phelps, was specially directed to the class referred to who die in middle age. He realized the fact that something far beyond the ordinary remedies and prescriptions of the day was required to meet the varied conditions of suffering humanity. His wonderful life-giving prescription, Paine's Celery Compound was the boon bestowed on the hosts who suffer from the common disease—penalties of nature for transgressions of its wise laws.

Dr. Phelps found that nervous diseases,

blood troubles, liver and kidney complaints, rheumatism, neuralgia and dyspepsia were dragging thousands to the grave every year, notwithstanding all the well directed efforts of conscientious medical men.

This marvellous prescription of Dr. Phelps was a revelation to the world, in that it cured desperate and long standing cases of disease that had baffled the best medical skill.

Since its advent, Paine's Celery Compound has saved tens of thousands, and is still conquering disease every day. No other medicine known to man has ever received such flattering notices and testimonials from prominent men and women and from the entire press of the land. It is the one and only life saver in every case of disease and suffering; it defeats death when the physician is unable to save.

It is to this marvellous banisher of disease—Paine's Celery Compound—that we would direct the attention of all who are run down, tired, sleepless, nervous, debilitated and weak—symptoms of the diseases we have referred to above. It will quickly give to every ailing man and woman that vigor, strength and perfect health that insure and guarantee a happy old age.

Marshal Blanco, Spanish captain general of Cuba, sailed from Havana on Wednesday. He was accompanied by several officers, and their departure was unaccompanied by the pomp and ceremony marking similar events in previous years.

Catarhal Deafness.

The last stage development of Nasal Catarrh, Japanese Catarrh Cure goes away past the points where even specialists on the disease have been able to reach. It's a penetrating, soothing, healing and strengthening compound, alleviating the inflammation and healing without leaving the slightest bad after-results. The only guaranteed Catarrh Cure. Soc. at all druggists.

HORSE HURTS

As an effective healer for sprains, curbs, galls, splints, sore throat, coughs, swelling, soreness or inflammation in horses and cattle, Griffith's Liniment has proved a supreme success—as good for the horse as for his master. P. H. Ritchie & Co., ranchers in Vancouver, B. C., say: "We consider Griffith's Menthol Liniment unequalled for horses. One of ours had a bad swelling on the left leg, which was swollen to an immense size. We applied the liniment and in two days the swelling had left him. We have tried many liniments but have found nothing to equal it."
