The whole original statement is interesting, containing as it does the names of about 800 persons, who were then mostly inhabitants of Westmorland county, though quite a number were resident in other parts of the province and Nova Scotia. A great many of these persons are now dead and many have moved away to other parts, some of whom are no only remembered by the older inhabitants. The amounts varied from a few shillings to upwards of £6,000; the whole estate amounting to about half a million dollars as the following "recapitulation" shows: Amounts due in ledger A. £32,830 6 10

The aggregate of the Indians' earnings throughout the dominion for the year was about \$3,212,040.05, an increase of \$403, 556.74 over income derived from the same sources the year before. This includes the value of farm produce, wages, earn-ings from fishing, hunting and various ther industries.

for agents to inform themselves exactly as to the amount Indians may make in various ways, especially when at a dis-tance from their reserves, so that, prob-ably, the actual amount was considerably

The Indians have other sources of income, notably interest money on funded capital, annuity payments and land rentals, but what has been mentioned represents effort on their part, and it will be seen from the sum mentioned above that they have been industrious and prosthat they have been industrious and prosperous. That this increase has largely resulted from an improved condition of
things generally will be borne out by a
consideration of the fact that the wages
earned have increased in the province of
Ontario by \$69,238.38; in Quebec by \$20,and in the last mentioned province the increase of earnings from miscellaneous increase of earnings from miscellaneous in-dustries reached the large figure of \$147,

The normal condition of the Indians varies in accordance with the length and intimacy of their intercourse with civili zation, and under the most favorable cir cumstances, improvement must be slow. There is little change in regard to educa-

Upon payment in full and proof that conditions of sale had been complied with, 285 letters patent were issued and recorded.

The amount at the credit of the Indian

trust fund on June 30 last, was \$3,893,622.63, as compared with \$3,785,616.35 at the end of the preceding year. Receipts during the year including interest and legislative grants, amounted in the aggregate to \$279,697,36 and disbursements to \$271,691.08. The balance at the credit of the Indian savings account has increased from \$14,656.48 to \$16,408.55 during the year.

"S. C. Wells Co., Toronto. Sirs:—My husband was a car cleaner and as healthy a man as you would find anywhere. One day he got a bit of a cold—such as he had had often before and shaken off easy enough, but this one was followed by a cough and before long he was awful bad. The Doctor said he must have inhaled something poisonous. We got medicine from the dispensary but it did him no good. One day his foreman came to see him and brought part of a bottle of Shiloh's Consumption Cure which had been left over after an attack of croup which his little boy had had. It seemed to do my husband good from the start and three other bottles of it set him on his feet again. I have no doubt that it saved his life. He's quit cleaning cars for good.
