Ayer's Sarsaparilla

IS widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its first markable cures. So mild as to be safe and beneficent to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination.

Impurities, or diseases that have collected in the system for years, soon yield to this powerful antidote and disappear. Hence its wonderful cures, many of which are publicly known, of Scrofula, and all scrofulous diseases, Ulcers, Eruptions, and eruptive disorders of the skin; Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, and internal Ulcerations of the Uterus, Stomach, and Liver. It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Pain, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhœa, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs it dissipates the depression and listless languor of the season. Even when no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

Watchmaking in Switzerland.

From The Boston Times of May 30th.

WE have already drawn attention to the annual pictures of the Society of Arts held on the 23rd current, under the presidentship of M. Th. de Saussure, and are now able to furnish some further details.

Professor Soret, in delivering a short interesting report passed in review the operations of the different sections, in reference to Commerce, laying great stress upon the exhibition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by observe manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching trials, to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellence unanimously decided in favor of Messrs. J. M. Badollet & Co., and their first success by gaining honorable mention for two other chronometers. The allusion to the triple honor was received with enthusiastic applause, and Professor Numbert, President of the Fine Arts Section, closed the meeting with a happy and humorous dissertation upon subjects connected with this department.

An assortment of
Gold and Silver Watches,
of different grades, from the eminent manufacturers above referred to, always kept in stock by

B. C. KENWAY, C. E.,

102 Prince William Street,
ST. JOHN, N. B.,
Civil Engineer, Land Surveyor, Patent Draughtsman and Architect.

HAVING had over twelve years' experience, in the science of Engineering, embracing practice in Europe, Asia and Africa—using none but the very best and latest instruments to-day, having recently imported direct from England a splendid five inch transit theodolite. I am in a position to put through field work with superior speed, accuracy, and consequent cheapness.

In consequence of numerous enquiries from friends, I have been induced to practice as an

ARCHITECT,

and am prepared to furnish DRAWINGS, ESTIMATES, and Personal Supervision for Buildings of all classes.

B. C. KENWAY, C. E.,
