COUNTY COUNCIL. MINUTES OF JANUARY STEION.

if the office of the Brockville and Ottawa Railway Company were removed from Brockville to a more central place, say Smith's Falls, it would be much more convenient for the attendance of Directors from the several Counties, would give more general satisfaction to the Counties, and in fact, is nothing more than justice to these United Counties.

All of which is respectfully submitted.

Mr. Bowes called attention to a placard which had been posted in the city that morning, tending to insul certain gentlemen from Lower Canada, and he called attention to it because there had since been a placard put out by the Orangemen of Toronto, repudiating the placard to which he had al eady referred. He had heard it asserted that this placard had been put out by persons who wanted to throw disrepute upon the soirce of the Orangemen which was to be held this evening, or as some persons thought, was in-tended to influence the decisions of the House with reference to the ceat of Government. The Orangemen, in any case, repudiated that placard. He was no Orangeman himself, but he had always tried to conciliate Qrangemen and Catholics; and he believed that none but the enemies of both parties the enemies indeed, of peace—could have been the authors of that infamous proclamation. He ended by declaring that the Low-

Trouble had occurred at Lidde. WELL DONE. - A conductor of a train on the Indiana Central railroad, says the Dayton Gazette, expecting the approach of another, went forward to give warning. It was night, and his lantern went out just as he heard the train rapidly approaching. As the locomotive came up he seized a club and threw it, but the missile glanced off from the engine, without making a noise perceptible even to himself. But seizing his lantern, "he hurled it at the lantern of the passing locomotive, just as it came opposite to him. Fortunately he hit it. The crashing glass and the extinguishment of the light startled the engineer. A sharp whistle was heard—the brakes were shut down—the train stopped. Everybody was safe, when, but for the throwing of that lucky lantern, scores might have been killed or wounded."

DELUGE IN SATURN.-The Astronor Deluge in Saturn.—The Astronomers recently have ascertained, to their own satisfaction, that the third ring of Saturn—and we judge therefore the others also—is fluid; and that "the inner borders of the ring have, since the time of Huygens, been gradually approaching the body of the planet, and that we may expect, sooner or later, perhaps in some dozen of years, to see the rings united with the body of the planet."
