Tuck your hay into snug, tight bales—

Stacked hay or hay in the mow does not represent hay at its best. Tuck your hay into snug, tight bales with an INTERNATIONAL HAY PRESS and get all of it under cover. And, too, your live stock will appreciate INTERNATIONAL-BALED hay because of its clean freshness and unimpaired food content. You can ship these snug, tight bales to the outside markets and command top prices. You can bale for your neighbors and make a good profit from such service. You can bale straw just as well as hay-keep the outfit busy during odd weeks between seasons.

Your light tractor will furnish ample power to operate an INTERNATIONAL POWER PRESS. If you do not have separate power, a 6 h.-p. FRICTION CLUTCH INTERNATIONAL KEROSENE ENGINE can be mounted on the front end of the frame of the two smaller size presses and belted direct to the baler-always ready for immediate service. The extra-large drive gears compound the engine's power enormously-and make the snug, tight bales of uniform weight that are so characteristically INTERNATIONAL.

INTERNATIONAL HAY PRESSES are made in three sizes-14x18, 16x18 and 17x22-horse and power styles. See your nearby International agent about oneand meanwhile let us mail you a catalogue. Just send us a post card.
