## A SUGGESTION IN HEATING

DURING thirty years' experience in the manufacturing and installing of heating systems we have noticed that in many cases a really good furnace does not give satisfaction because it is not properly installed. In order to hold our position as the Leading Furnace Manufacturers, it is necessary that our furnaces be properly set up, and we have used a plan which enables us to control the setting up of the majority of our systems. We ask all who are interested in heating to send us a sketch of their buildings, and offer to return the sketch accompanied by a complete plan of the heating and the price of the system. This ensures that the furnace will be set up so as to give the best results. Write us.
