V.D. Amin spreads the word

KAMPALA (ENS-CUP) - The government of Idi Amin has ordered Uganda's Justice Ministry to draw up new laws for prosecuting Ugandans suffering from venereal disease. Ironically, Amin himself is believed to suffer from syphilis

According to Dr. Maurice Ashael, an Israeli psychiatrist who served as an adviser to the Ugandan government from 1969 to 1972, Amin has suffered brain damage due to advanced states of syphilis.

Now, Amin apparently wants to crack down on others who share his affliction. According to Uganda Radio, the nation's Defense Council has appealed to citizens "in possession of concrete evidence" to report VD victims to the people.
