

TORONTO STABLE EQUIPMENTS

Make Chores Easier

Stock Healthier

Profits Bigger

When TORONTO Steel Stalls and Stanchions, set in concrete, replace the old wooden stalls and tie posts and plank or block floors, filth and disease germs disappear. There is nothing to harbor them—nothing to block the light and fresh air from every part of the stable. The Stanchions save no end of time and trouble, and give the stock much greater freedom.

TORONTO WATER BOWLS

When TORONTO Water Bowls replace the outside trough or tub, the whole time of watering is saved and the animals get all the water they need, at the right temperature, just when they want it.

TORONTO GRINDERS

When a TORONTO Grinder is installed on the floor above, and driven by the same power, there is never a shortage of properly ground grain—nor any time wasted teaming it to and from the mill.

The most reliable water supply comes from a Toronto Pump driven by a Toronto Engine or Wind Mill. It is always on the job.

We have here, for you, a copy of a 36-page Illustrated Booklet giving full detailed descriptions of TORONTO Stalls, Stanchions, Water Bowls and other modern fittings. Write us for it.
