

ROOFING FACTS AND FIGURES IN OUR FREE BOOK

show why it will be money in your pocket to lay an ASBESTOS ROOF. The figures prove the economy of it. First, because ASBESTOS is the only permanently durable ready roofing. Second, because it is not made to be painted, coated or protected in any way. The Asbestos, being a mineral, is indestructible. Yet it costs no more per roll than some ordinary roofings, which cost more to keep painted or coated than they cost in the first place.

J-M ASBESTOS ROOFING

gives real fire protection, too. No other roofing made does this. Don't listen to "claims." Ask for the facts. Our facts prove our claims. Learn also why Asbestos Roofing keeps buildings warm in winter and cool in summer. Write to-day for Book No. 80 and samples. No matter what kind of roofing you want this book will help you choose wisely.

YOUR FARM IN DANGER?

TAKE WARNING.—Its richness and fertility cannot last forever. Eighty loads of hay means a depreciation yearly of \$408. Repairing the depreciation by putting back manure by hand is slow, discouraging work, and never well done. The time of yourself and your hired man, and increase of crops, will in two years pay for a

Frost & Wood CHAMPION MANURE SPREADER

A stronger, more durable machine there cannot be found in the Dominion. Has rigid, stiff-braced sills and frame; also solid cold-rolled steel rear power axle, 2 1/4 inches in diameter. Light draft, uniform spreading by beater and apron, thorough pulverizing rake driven by large sprocket wheel and worm gear, are only a few features out of a score that make the Champion a money-maker for you. We cannot tell all the good news about this Spreader here, but we have done it with photos and interesting descriptions in our Free Booklet, "How to Feed Your Crops."

Making Hay

As all progressive farmers are at all times ready to adopt any new machines which prove economical, we print a letter and clipping received by Dain Manfg. Co., Preston, Ont., from a party using their Loader.

Kingsmill, Feb. 27, '08

Dain Manfg. Co.:

Gentlemen,—I enclose clipping from "Aylmer Express," of July 25th, 1907:

"The haying outfit of L. M. Brown, of Kingsmill, put in 31 loads of hay one day last week, the product of 14 acres, two of which is orchard. Twenty-eight loads were loaded with a Dain Hay Loader on roller rack with only one man on the wagon, and for twenty-four loads the man drove his own team. Mostly unloaded in a shed with ordinary horse fork, although a gasoline engine is used for unloading in the barn. This looks like very fast work, and shows what can be done by an up-to-date farmer with modern machinery, even if men are scarce."

I do not regard this as a big day's work, the man with the loader easily kept the unloading gang at work, and they had long narrow sheds to work in most of the time.

I believe one man with your loader and roller racks, such as we use, will load ten loads per hour all day, if empty wagons are brought to him in the field.

Respectfully yours,

L. M. BROWN.

"LEADER"

Fence Lock

The Double Grip Gives Double Strength

A brand new No. 9 hard steel wire fence with a lock doubly as strong as any previously devised for a woven fence—this is the "Leader" fence.

The "Leader" lock has a double grip (usual locks have but a single grip). The double grip makes doubly as stiff and strong a fence—the wires cannot be moved up, down or sideways under the most severe strain to which a fence could be put. The "Leader" is the leading fence investment. Buy it.

Boys for Farm Help The managers of Dr. Barnardo's Homes invite applications from farmers, or others, for the boys who are arriving periodically from England to be placed in this country. The young immigrants are mostly between 11 and 13 years of age; all will have passed through a period of training at Dr. Barnardo's English Institutions, and will have been carefully selected with a view to their moral and physical suitability for Canadian life. Full particulars as to the terms and conditions upon which the boys are placed may be obtained upon application to Mr. Alfred B. Owen, Agent Dr. Barnardo's Homes, 50-52 Peter St., Toronto.

GET ONE OF OUR HANDY WAGONS!

and unloaded as a high-wheel one. of soft soil, as they do not sink in. and see which style you like best. Steel Wheels, which fit any size axle.

You have an up-to-date harrow, seeder and binder, so why not an up-to-date wagon? You use a wagon fifty times as often as you do either of those machines. And one of our Handy Wagons will save half your loading-labor and time. Strong, substantial frames placed on Low, Wide-tire Wheels. A wagon with low wheels is twice as easily and quickly loaded WIDE-TIRE Wheels enable the wagon to make light work of soft soil, as they do not sink in. Our catalogue shows our line of Handy Wagons. Write for it, and see which style you like best. Catalogue also gives full information about our Low, Wide-tire Steel Wheels, which fit any size axle. Lighter, stronger, more durable than wood.
