DO YOU Wish to Secure The Greatest Heat At the Least COST ?

PEASE "ECONOMY" FURNACES

We might go into great detail in describing the many mechanical features that make Pease Furnaces superior, but after all is said we come back to the main question that is most vitally important to YOU:

“Will I get the greatest heat at the least cost if I instal a Pease Furnace?”

The experience of over 70,000 users during the past 36 years says “YES” so strongly to this question that no one considering the purchase of a heating system of any sort can afford to overlook the Pease System.

For instance the fire-pot in the new 700 Series Pease Furnace is so constructed that you can always have a clean fire and use every possible unit of heat generated from the Coal. This one feature alone makes the Pease “700 Series” Furnace 50% more efficient than the ordinary heater.

There are many other money-saving, labor-saving features about the Pease that YOU will be glad to know about.

Don't wait until Fall to instal a Pease. Do it just as soon as possible this Spring when there is plenty of time to make the most perfect installation.

The Pease Furnace has justly earned its slogan

“Pays for itself by the Coal it saves.”
