PROCRASTINATION IS THE THIEF OF TIME

Delay is dangerous—neglect that cold and cough a few weeks, and the hope of recovery will be lost to you forever. Let not any pecuniary consideration deter you from trying to save your life and health while there is a chance.

Consumption is annually sweeping off thousands to the tomb: no disease has baffled the skill of physicians like it; no physician, perhaps, has ever done more for this large class of suffering humanity, than Dr. Wistar. An "ounce of preventive is worth a pound of cure;" therefore, before your lungs become ulcerated, and so diseased that no human means can save you from an early grave, try in season, try at once, a medicine which has been of such infinite value to thousands—obtain a bottle of Dr. Wistar's Balsam of Wild Cherry, take it, get another if necessary, persevere in using it until you have removed the disease entirely, which if neglected will terminate your life.

PULMONARY CONSUMPTION

Has until within a few years, been generally considered incurable, although many medical men of the highest standing, among whom we might mention Laennec and his friend Bayl—both distinguished authors, admit that this much dreaded disease may be cured, even in its advanced stages, when the lungs are not completely diseased. The remedy which we now offer,

WISTAR'S BALSAM OF WILD CHERRY, not only emanates from a regular Physician, but has been well tested in all the complaints for which it is recommended.

BEWARE OF IMPOSITION. Remember, the original and only genuine WISTAR'S BALSAM OF WILD CHERRY always bears the written signature of I. BUTTS on the outside wrapper.
