THE SILENT LOVERS.

An eminent clergyman one evening became the subject of conversation, and a wonder was expressed that he had never married. "That ider," said Miss Porter, " was once expressed to the reverend gentleman himself, in my hearing and he told a story in answer, which I will to you ; and perhaps, slight as it may seem, it is the history of other hearts as sensitive and delicate as his own. Soon after his ordination, he preached bis own. Soon after his ordination, he presented once every Sabbath for a clergyman in a small village not twenty uniles from London. Among his anditors, from Sunday to Sunday, he observed a young lady, who occupied a certain seat, and

whose close attention began insensibly to grow to him an object of thought and pleasure. She left chanced that he went on for a year without even knowing hor name; but his sermon was never written without many a thought how she would approve it, nor preached with satisfaction unless though any continued conversation evi-though any continued conversation evi-dently could not be understood.
