Next Time You're In Hamilton

call and let us show you a water system for farm homes that will give you the same conveniences enjoyed by your city friends.

It costs but little to install in old or new houses. Never freezes. Always ready—day or night. Saves time and trouble.

There is a "Peerless System"—hand or power—to meet any requirement.

PEERLESS WATER SYSTEMS

are extremely simple. Just an airtight, sanitary steel tank that is located in the basement. Small pump—hand or electric—forces water and air into tank and keeps an even pressure at all faucets.

A Peerless System saves carrying water by hand. It helps you get and keep better farm help. It creates improved living conditions which the entire family will enjoy.

Call here and see it in actual operation. You will not be asked to buy— we sell to plumbers only.
