That headache that makes brain work an impossibility, that heartburn, those pains in the stomach are only some of the symptoms of Dyspepsia, that nerve destroying terror of these days of hurry and bustle. Nearly everyone has it in some shape or other and many do not know that it can be easily and permanently cured. It is to these that Marie Ann Bejold, of Bonaventure Co., Quebec, wants to talk. She has suffered from Dyspepsia and tells how Dodd's Dyspepsia Tablets cured her.

"For two years my life had been burden," she says. 'I could not take the simplest food without having a pain across my stomach.

Grease Spots.

Many a housewife who thinks she knows the best way to eradicate grease spots, the most common of all stains, finds that within a few weeks after treatment the garment has an unsightly ring where the spot was This was due to the fact that when the stain was rubbed and the grease loosened, it, lacking an absorbent, spread itself into the surrounding fabric. This is the right way to remove a grease spot: Take benzine, gasoline, turpentine or, best of all, ether, and moisten a large ring around the grease spot, gradually working toward the center When this is reached, immediately saturate two pieces of blotting paper with the spirit, place one beneath and the other on top and press with a weight. By this means the grease will be absorbed as soon as dissolved.
