Letters to the Editor. DEAR SIR:—Desirous of getting some knowledge of the New Liberal policy the writer attended the meeting addressed by Dr. Clark, M. P., a few evenings ago.

Dr. Clark has a reputation of being one of the best speakers in the Dominion Parliament and I fully expected to hear something of importance. He is certainly a fluent and pleasing speaker, so far as talk goes.

He made a fine argument in favor of Free Trade and asked the people to send Sir Fred Borden back to Parliament when they have the opportunity.

Dr. Clark aware of the fact that Sir Fred Borden preached Free Trade to the people of Kings county for eighteen years and then for the next fifteen years helped the trusts and manufacturers to bleed white the people that he and Dr. Clark take such a friendly interest in at the present time? Dr. Clark seemed to be worried lest Bob Rogers and Frank Cochrane should be connected with the grant for better roads, which the Senate killed.

I wonder if Dr. Clark ever heard of Billy Feilding and George Murray in connection with road improvements? Truly politics make strange bedfellows.

Smoke Nuisance at Hockey Matches. In anticipation of a large crowd at a hockey match on Monday evening next with Wolfville, the management of the Hockey Club will take steps to prohibit smoking during the game.

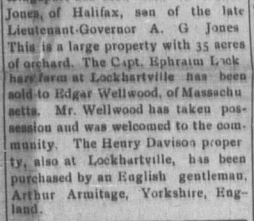

This move is following the lead of other cities and towns, realizing that in justice to the teams playing and from a spectator's standpoint it should be taken. The league rules call for three playing periods of 20 minutes with rests between each. This necessity makes the game faster, and consequently the players demand the air be free from smoke. The move is a splendid idea and will meet with the approval of all interested in the home team. Spectators (especially ladies) will now be able to enjoy to the full the exciting sport which in former years the pall of smoke dimmed.

The above is taken from the Year-month Post and indicates that the ink management of that town is determined to abolish what is a real nuisance at all hockey games. A similar action taken by the management of all the rinks would add very much to the popularity of the game.
