Practical are the suggestions made Practical are the suggestions made by a special commission which stud-ied vocational training. Recogniz-ing both the necessity and the value of improving our educational meth-cal along practical lines so as to hold the interest of students of maturer years, the commission has outlined plans which it is anticipated will bring about the desired results outlined plans which it is anticipated will bring about the desired results with the least possible additional expenditure and the least possible interference with existing methods. The report, a comprehensive and valuable one, presents in the briefest possible space the work of many months of careful and searching study, outlines plans of action which cannot fail to be productive of good results wherever sympathetically and intelligently

The meeting was addressed by Mr. D. G. Cock, the Provincial Director of the campaign, by Capt. Kucale, Chief of the Military Y. M. C. A. staff of the Province. The former gave facts regarding the growth of the campaign organization throughout the province and the latter gave a vivid picture of the services of the Y' for our sold era at Halifax.

The meeting confirmed Mr. E. B.

The meeting confirmed Mr. E. B. Newcombe's appointment, and Mr Geo. A. Chase of Port Williams, late pointed organizer for the campaign and Mr. Geo. C. Roy, of the Bank of Nova Scotia, secy treasurer. These officers together with Dr. H. T. De-Wolfe, of 'Acadia,' constitute the ex-

CANADA'S PRIDE

CANADIANS have good reason to be proud of the position Canada holds in the world today. This pride is justified by the activities of her people, by her unlimited natural resources, by her splendid institutions, and particularly by her Industries.

Facts about the immensity of some Canadian industries would

stonish most people.

These industries, when viewed in the light of comparison with other countries, are simply tre-

The growth of any industry is limited to the number of people it can serve, and that is a fact not often properly appreciated when Canadian industries are compared to similar enterprises in, say, the United States.

For example: the population of the United States exceeds of the United States exceeds 100,000,000. Opportunity for industries there is almost unlimited. In comparison, Canada with its seven million population is a small country—yet in spite of this compactatively small population, Canada possesses several industries which in actual size rank among the biggest in the world.

In shoemaking, one Canadian

In shoemaking, one Canadian concern has developed a volume of business and a service to the Canadian people which is not

equalled by another shoe manufacturer anywhere in the world. This concern, if located in the United States, would rank as one of the twelve largest out of some two thousand shoe manufacturers

while the sales of the largest shoe manufacturer in the United States—selling to the American people—do not exceed twenty-five cents per capita per year, the sales of Ames Holden McCready to the Canadian people last year were Canadian people last year were approximately eighty cents per

In a comparative sense, there-fore, this Canadian concern is greater than the foremost Ameri-can shoe manufacturer in the United States.

Thus Ames Holden McCready truly merit the distinction of their title "Shoemakers to the Canadian

Just imagine for a moment the enormous work of supplying a large portion of Canada's 7,000,000 peo-ple with its boots and shoes:

it requires—huge up-to-date factories equipped with the most modern machinery able to turn out 8,000 pairs of shoes a day.

it requires—a variety of nearly different styles to meet the unvasions of all classes of people, to different grades, shapes and kinds of shoes.

It requires—the maintenance of

—it requires—many other details of organization and equipment, but this brief outline will give you some slight idea of the part that this great shoe concern is playing in the business of supplying footwear the Canadian people.

You will be interested in these facts, because the next time you buy footwear bearing the A.H.M. Brand, you will know that they are the product of a large and efficient organization making shoes which will in every case give you the greatest value for your money.

The Legislature is amending the Temperance Act. A new amendment has been proposed, the effect of which it adopted, would be the privilege of sppealing to a higher court from a magistrate's decision. Prominent members of the house are supporting the amendment, Others are opposite than the control of the court In some instances the gentlement chosen as representatives were not present at the meeting but in other counties already reported organized this same method has been adopted this same method has been adopted for organization. A 'most without exception parties selected in their absence have cheerfully consented to act. Kings is just as much interested in the welfare of our boys at the Iront as any other county, and it is taken for granted these men selected in their absence will act. In due time information to sesiet in the compaign will reach the various workers.

As every home in the Dominion' is benefiting directly or indirectly by the work of the military V. M. C. A for our soldier boys at this time, it is expected that general and generous response will be made to the 'Y' in this campaign.
