NOTE--A few old accounts are still unsettled. Immediate attention to these will save the parties
costs and trouble. If this means YOU, it is your Last Chance.

PULP ENTERPRISE FOR GRAND FALLS

Rumors that the Pulp People Have
Understanding as to the
Power Rights

Grand Falls, March 29.—There is some stir here and much disappointment at Edmundston over the rumor that Frasers Limited are likely to withdraw from Edmundston and to build their pulp mills at Grand Falls. The getting of options at Edmundston has been stopped or held up, rumor has it, while in this vicinity there has been some activity for a few days in the real estate market, stimulated by the business proportions of a class of people who are supposed to be in close touch with those who know what the movements of the pulp enterprise are to be. In this connection the rumor goes that there was some understanding between the leaders of the Opposition party, or others in their confidence, and the Frasers Limited before the general elections, by which the Frasers, in whom American capital has recently become interested in the pulp enterprise, were to get control of the Grand Falls power if the Opposition succeeded to office. Grand Falls power concessions, never made active use of, are held by Americans now, but whatever there is in the present position of affairs could be made satisfactory to the Frasers Limited by legislation, if the new government party is strong enough to get it through the House. In the same connection it is also said that a deal of pretty large size porportions was proposed through which it was hoped that a lumber concern would acquire, in their own right and title, some very large tracts of timber in this province; but of this there is nothing yet on the surface. It is known, however, that some lawyers in the province have, within the last day or two, been diligently looking into the legislation under which the Grand Falls concessions are now held, and also into other matters bearing upon the situation, with the apparent purpose of preparing for a move in the direction indicated in the outset of this despatch.—Gleaner.

A Camp Conference for Older Boys

The object of this conference is to train older boys for work and play in God's great out-of-doors, through the Canadian Standard Efficiency tests. It will be held at Chipman, by the Salmon River, July 14-28 and will provide fellowship with a live group of good fellows, led by leaders who are the choicest of our Canadian men who know boys. In this day, when every man must be at his best, and take advantage of every minute, such a camp affords a great opportunity for training in the fourfold life, the Jesus-way of living.

The first notice of this camp conference is now in the hands of leaders of boys' work throughout New Brunswick, and we will quote from it to show what such a gathering will mean to boys and their leaders:

"To live under canvas in the open air, to breathe pure oxygen, to bath in sun and water, to sleep upon a bed of boughs beside the trail, to ply the oar and wield the paddle in the moonlight, to dive in the cool waters of the river at dawn and to watch the stars at night; to commune night and morn and mid-day with God's great out of doors. This is the Call!"

"To confer, to study the guide-book of the boy, the man and nations; to learn to live right, to

speaking true, to help the weak, to follow the Christ; to note rules of righteous living in prophet, priest and sage and to apply them to our daily life and service, to become acquainted with the Bible. To study plans for the home and the Sunday school, and programs of service and activities to be done to hear men who have travelled life's trail tell the story; to discuss the ways by which men earn their daily bread out in the man's world; to play and sail and hike at night when the day is done, and to do it in the spirit of the Master of Men. This is the Call!"

Those who may go are older boys of fifteen years of age and over; men who are leaders of boys; representatives of organized Sunday School Classes, Y. M. C. A. and High School Clubs and other organized groups of older boys. The conference committee are special anxious to train and call out capacities for leadership in the Canadian National Ideal of "Living for Canada in the Jesus Way."

The approximate cost will be: Registration fee \$1.50; board and tent for two weeks, \$8.50; travelling expenses on the Standard Certificate plan.

Hugh G. McCain

On Saturday, Mar. 17, Hugh G. McCain passed away at his residence in Florenceville. Deceased had been afflicted for several years with bronchitis, but during the present winter his health had been unusually good. The ill turn which brought the fatal result took place only a few days before his death.

Mr. McCain was born in Florenceville in June 1842. He was the second son of the late William McCain. He was twice married. His first wife was Miss Jane Kilpatrick of Greenfield, who bore one son, William, at home; and three daughters, Mrs. J. V. Kearney, of Fredericton, Mrs. Samuel Long of Francois Lake, B. C., and Miss Effie (deceased). His second wife was Miss Jean McKay by whom he had two daughters, Mrs. Wilmet Caldwell of Greenfield, and Miss Hughina, at home. He is also survived by five brothers, James, William E., Samuel, Thomas and Allison, all of Florenceville.

As a prosperous farmer and a lifelong resident of Florenceville Mr. McCain had many friends. He was just and benevolent in his dealing with men, and his attitude towards God was Christian faith and devotion to the Master's cause. He was a member of the Presbyterian church of Greenfield and regularly attended its services as long as health permitted.

The funeral was held on Monday afternoon. The services were conducted by Rev. M. H. Manuel. The funeral text was chosen by the deceased—John 10, 9: "I am the door, by Me if any man enter in he shall be saved, and shall go in and out and find pasture." Four of Mr. McCain's brothers were pall-bearers. Burial took place in the old family lot a few rods from the place where he was born.

THE HIGH COST OF THINGS

Farmers are Inclined to Blame
Merchants for Prices They
have to Pay

The chief cause of the higher cost of the necessities of life is in the difficulty in transporting the raw materials. Particularly materials that have to be brought by ocean vessels are both scarce and high on account, not only of the submarine danger, but scarcity of vessels. Most of those not already blown up or sunk have been requisitioned for war purposes. Therefore sugar, molasses, broom corn, etc., from the West Indies are at unheard of prices. So it is with fabrics and all British manufactures. Canadian manufacturers know the reason of the shortage; while the consumer wonders why and thinks he must be cheated.

The railways are unable to handle the greatly increased traffic caused by the war. Goods that could be brought from Montreal in a few days now are detained as many weeks on the way. Many merchants are having goods come by express at \$2.75 per 100 pounds instead of the slower way by freight at 75 cents a hundred.

An upriver merchant writes to The Observer:

"Fellows like me are up against a lot of talk to explain to country folk the higher cost of things. They only want to see their side of the story, and it is hard work to clear some matters up. It is getting so now that merchants do not know from day to day what goods are going to cost and the expense of doing business is increasing right along. Why, see the cost of doing up parcels! Two years ago we bought twine for 12 cents that costs 50 cents today and wrapping paper that before the war cost 34 cents costs 114 cents today. This means that the merchant who used \$350 worth of paper in a year—and I use more—must pay now \$1150 for it."

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a 25-cent bottle of Danderine.

If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots tanish, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.
