HEALTH AND STRENGTH CAN BE RESTORED.

Not the least among the many valuable services Dr. Williams' Pink Pills have rendered to suffering women, is that of ridding them over the critical period, commencing at middle age, commonly known as the change of life. It is often happens that at this time the system undergoes a change into a state of chronic invalidism and the actual danger to life which attends the change is so great that a medicine which can be relied upon to carry the system over this dangerous time, is nothing less than a life-saving intervention. What Dr. Williams' Pink Pills will do for women at this change of life is shown in a case reported in the Dewbury, (Eng.) Chronicle. It is that of Mrs. Benjamin Smith, who lives at Hanover street, Dewbury. The change of life had left her weak and miserable, with constant pains, dizziness and shortness of breath on the slightest exertion, together with chronic rheumatism in the heat and eyes. The pain in her head was so acute for words. She got no sleep either by day or night, and her agony was at times so great that it took two people to hold her in bed. A skilful doctor was called in but of no good. "My checks would swell up as big as saucers," said Mrs. Smith, "my eyes were as red as fire and there was no getting rid of the pain in the head. I suffered also from a sluggish liver and weak heart, and at times my eyesight was so bad that objects before me seemed but dim shadows and there was none of my friends who looked for my restoration to health. I saw an account in a newspaper of a cure similar to mine through the use of Dr. Williams' Pink Pills, and my husband and I were used the pills before we disappeared as if by magic, and the continued use of the pills for a little more than a month, has left me enjoying as good health as ever I had in my life. I consider Dr. Williams' Pink Pills a blessing, and as I know there are thousands of women who suffer in silence from troubles having the same origin as mine, I am grateful enough for what they have done for me to tell my story in the hope that some suffering sister may be similarly helped, and may have full permission to publish what I have told you, which statements can be verified by any of my neighbors."

Mrs. A. C. Fitchell writes:—I take this opportunity of thanking you for the great benefit I have received from Dr. Williams' Pink Pills in that critical period known as the change of life. I had suffered for years from kidney troubles, and this I suppose was the commencement of the change. I was attacked with spells of dizziness and weakness, accompanied with pains in the back, which would last for weeks at a time, and from which I would not get more than an hour or two's sleep at night. A friend, who had successfully used Dr. Williams' Pink Pills in a similar emergency urged me to try them. They were the only thing that brought me safely through this critical period, and I am again enjoying perfect health, and take pleasure in recommending Pink Pills to those similarly situated.

Rev. David Forbes, missionary at Poplar Dale, Algeria, writes:—I feel that I would be untrue in my duty did I not write to let you know the wonderful benefit derived by a young lady here from the use of your Pink Pills. I was taken sick two years ago, and all my efforts to restore her health proved of no avail. Visiting the family in my capacity as missionary, I saw with sorrow that unless something was done to avert the progress of her trouble, she would not be long for this world. She was pale, almost bloodless, and subject to all the distressing symptoms which accompany anemia and bring the victim to an early grave. I argued the parents to try Dr. Williams' Pink Pills. They have saved our daughter's life and we are more grateful than we can say, and freely give you permission to send this testimonial, in the hope that some one in similar circumstances may be benefited."

Dr. Williams' Pills are a tonic medicine enriching the blood, strengthening the nerves, thus reaching the root of disease and driving it from the system. They are beyond doubt the greatest medicine of the 19th century and have cured in hundreds of cases after all other means had failed. The great popularity of Dr. Williams' Pink Pills has caused unscrupulous dealers to imitate them extensively, and intending buyers are urged to see that every box is enclosed in a wrapper bearing the full registered trade mark "Dr. Williams' Pink Pills for Pale People." Pills colored pink, but sold in loose form by the dozen, hundred or ounce, or taken from glass jars are fraudulent imitations and should always be refused, no matter how plausible may be the story of the interesting dealer offering them.

Mrs. J. H. McMillan, South Finch street, Ont., says:—"For seven years I was afflicted with what is generally termed female weakness, and was for weeks unable to leave my bed. At times my friends all thought I was going into decline and had consumption. My complexion was yellow, my appetite was almost gone."
