Mr. W. W. Sullivan will deliver a lecture, by special invitation, at the Hall, New Glasgow, on Wednesday evening, the 1st of February, at 8 o'clock, on "The Proposed Confederation of the Colonies."

All sorts of Paragraphs.

The couriers have crossed and recrossed the Straits with mails and passengers with much regularity during the past week.

At a recent meeting of the Hibernian Debating Society, Wellington, the Union Question was fully debated after which a resolution was unanimously adopted condemnatory of the terms of the Union. We have received a lengthy account of the meeting from the Sec'y, Mr. Jas. H. Fitzgerald, but we have not space to give it publicity this week.

New Brunswick papers say that Fenianism exists in that Province. It is supposed that a branch of the same organization exists in this Island, and that the Colonial Secretary has had something to do with its introduction from the fact that he has a green painted jaunting sleigh. Can anything be more convincing? Let the Government look to the matter as it should.

Our Correspondents and the Examiner will have to excuse us this week for apparent neglect.

CHARLOTTETOWN LITERARY AND DEBATING SOCIETY.—The debate on the question of the "Tantum Union" drew a crowded house, and was, as expected, very animated. After the discussion, the following Resolution was carried unanimously:—

"Resolved, As the opinion of this Club, that the Tantiem League association is entitled to the thanks of the community for the benefit conferred on the Colony in releasing by private purchase, from their leasehold tenures, the Tantiem on the Haythorne Estate, and that we sympathize with the tenantry in their difficulties, and congratulate them on the independent efforts they are making to become freeholders; and we are of opinion that they have a right to exercise every legal and legitimate privilege of British subjects, for the attainment of that desirable end."

The question for next Friday's debate is:—"Eloquence is a gift of Nature, or may it be acquired?" Opever, Mr. Arch McNeill.

F. S. LONGWORTH, Sec'y.

January 23rd, 1865.

In New Brunswick and Nova Scotia, Confederation is becoming more unpopular every day, notwithstanding the extraordinary efforts which are being put forth by its friends for its success. The Halifax Chronicle, which was recently a strong Confederation paper, under the editorial management of the Hon. Mr. McCully, one of the Nova Scotia Delegates, has suddenly changed, and is now an opponent of the scheme, whilst Mr. McCully is forced to find another organ for his views. A vacancy having occurred in the representation of the County Annapolis—one of the most influential in Nova Scotia—Mr. W. W. Ray, a strong anti-Confederator, was elected by a majority of 265 over the Government Union Candidate, Mr. Granville Reed. The Halifax Sun, moreover, assures us, that three fourths of the people of that Province are opposed to Confederation. So much for Nova Scotia, notwithstanding the late Colonial Railroad bait. In New Brunswick, matters are somewhat similar, and at a recent election for Northumberland County, in that Province, a Mr. Hutchinson was elected M. P. P. by a large majority over his opponent, Davis P. Howe, editor of the Miramichi Times and a friend of Confederation. Thus the ball moves, and the "golden prospects" of our delegates are growing small by degrees and beautifully less. Sic transit gloria.

CONTEMPORARY OPINION.—We observe that the "Yarmouth Herald" and the "Tribune," the Bridge-town "Free Press," and the "Eastern Chronicle" pronounce against Confederation. The "Herald" says:

"The political journals directly under the control of the Delegates, and those subsidized by the Government, are of course in favor of the scheme, but the independent press is for the most part opposed. This is a good symptom, and we are not without hope that, before the Legislature meets, Halifax will unite with the great mass of the people in the country in opposition to this conspiracy of a few ambitious politicians who have spent most of their lives in representing each other to be rogues, and impostors, and who agreed in anything, except the present scheme for their own aggrandizement."

This is substantially the view of the "situation" propounded by the other journals, we have named. In Halifax Confederation is vigorously opposed by the "Citizen," the "Bullroar," and now at length by the "Morning Chronicle." It is supported by the "Colonist," the "Reporter," the "Express," and is viewed favorably by "Freeman" in the leading opponent of the scheme.—The "Telegraph" is extremely moderate, and we might say, open to conviction. The "News" is out-and-out in favor of Confederation. Presbyterian, and all the other religious papers think the balance of advantages is in favor of union. The Prince Edward Island people have evidently made up their minds to have nothing to do with the scheme. The "Protestant" has very ably discussed it and opposed it. The "Islander" and the "Examiner" are its only defenders. The "Monitor" takes Mr. Palmer's view of the matter. In Canada all the most able and influential papers seem favorable to Confederation.—H. W. Wilson.

Principal Inglis, LL.D., lectured before the Association on Thursday evening last, his subject, as announced, being:—"The Prominent Features of the Times." An every countenance has its own features, so likewise has every age. The lecturer proposed to sketch some of the features of the present age. He began with a brief review of the history and progress of Europe, going back to the early centuries of the Christian era, and coming down to our own times. He then proceeded to speak of the features of these times: arranging them, I. As mechanical; II. As political; III. As mental and moral; and IV. As Missionary. He adduced a number of well-chosen instances in illustration of his subject in the above departments. The whole displayed large reading, and deep and careful thought. It was set forth in the lecturer's usual happy style, enlivened by occasional passages of graceful and effective eloquence.

A school for military instruction, under the superintendence of Mr. Moran, late of the 52d Regt., was opened in this city on Tuesday, the 17th. Several of the officers and members of the country Volunteer Companies are in attendance. Hours of drill: 11 to 12.30, 2 to 3.30 and 7 to 9.

Confederation is daily falling more and more into disfavor. All the statements made by its advocates have been shown to be incorrect, all their arguments delusive. We have left them no ground to stand on. They shifted and changed and twisted and turned, but we followed them in every turn until, with the help of themselves and their colleagues, we drove them to the last ditch and out of it. Still the advocates go on making speeches, repeating the old arguments that have been so completely refuted, and in-

venting new stories to please each locality. To the people of Fredericton they said that Confederation alone could secure them the perpetual tenure of the seat of Government, and give them the Intercolonial Railroad between Fredericton and Stanley, and a branch of Western Extension. We wonder what they will promise to the farmers and merchants of Sackville in return for the loss of their independence, and to enable them to meet the load of additional taxation.—St. John Freeman.

We are not without hope that, before the Legislature meets, Halifax will unite with the great mass of the people in the country in opposition to this conspiracy of a few ambitious politicians who have spent most of their lives in representing each other to be rogues and impostors, and who never agreed in anything, except the present scheme for their own aggrandizement.—Yarmouth Herald.

HOLLOWAY'S OINTMENT.—All varieties of ulcerations, bad legs, ulcers, wounds, and eruptions, can be cured by the diligent use of this ointment, and healing Unguent. It is sold and often-failing fashion of strapping the edges of ulcers together with plasters has entirely given way before more reasonable treatment of Holloway's Ointment, which builds up from the bottom of the wound with sound and healthy granulations; these gradually grow till they reach the level of the surface, then contract, harden and immediately become covered with a new and wholesome skin. The proper application of this Ointment diminishes the inflammation, causes the unhealthy discharge first to grow thick, then to cease. The Pills should be taken so as to act in unison with the Ointment.
