**A FAMILY MEMORIAL**

should be a record for the ages

THE extra cost of a good monument  
over the other kind is a duty to  
those who come after quite as much  
as to those remembered.

THE value of our guarantee is  
evident in thousands of monuments  
erected by us from Halifax to Camp-  
bellton during the SIXTY YEARS  
we have been in business.

Write for design booklet to  
MONCTON, N. B.

**Here and There**

Major-General Sir Fabian Ware,  
vice-chairman of the Imperial War  
Graves Commission, who has been  
visiting in Canada during October,  
has been recalled to England much  
earlier than he expected. Prior to  
sailing on the Canadian Pacific  
liner, Montclare, from Montreal, he  
expressed the hope that he would  
be able to come to Canada again  
next spring so that he could give  
Canadians in the West some idea  
of what the Imperial Commission  
is doing in caring for the graves of  
western youths who perished dur-  
ing the war.

Robert L. Rice, Jr., of Boston, and  
J. Y. Cole, of Harvard, took big  
chances when they attempted to  
travel by canoe from Rouyn to An-  
gliers at the end of October. Al-  
though they started in beautiful In-  
dian summer weather they ran  
within a few hours into a bad storm  
which filled their canoe with half  
melted snow and almost froze them  
into unconsciousness. Fortunately  
they arrived in the nick of time at  
a fire-ranger's hut where they  
stayed a few days until the storm  
abated. They were prospecting in  
the neighborhood and were none the  
worse for their perilous trip when  
they finally reached Montreal.

Bob Shawkey, New York Yankee  
veteran pitcher, who organized the  
party of major league baseball play-  
ers now hunting big game in New  
Brunswick, shot a moose with antlers  
spreading 56 inches and having 28  
points, according to word received  
at Fredericton, N.B. Shawkey shot  
his moose the first day the party  
spent in the woods. This informa-  
tion is conveyed by another party of  
hunters who passed the camp of the  
ball players at Nepesiqui Lakes. In  
the group are some of the best  
known players in the American  
League, Eddie Collins, Babe Ruth  
and Muddy Ruel being among them.

The romance of a world cruise  
culminated in New York City re-  
cently when Dorothy Holmes  
O'Ryan, daughter of Major-General  
and Mrs. John F. O'Ryan, of New  
York, married Darwin Curtis, of  
Chicago. The couple met for the  
first time a year ago on board the  
Canadian Pacific liner Empress of  
France which was then making a  
tour of the world. It is feared they  
had no eyes for the world marvels  
which were unrolled before them on  
the tour, since it is stated they fell  
in love at first sight and could only  
see each other. The marriage was  
performed by the Rev. Father Fran-  
cis P. Duffy, chaplain of the "Figh-  
ting Sixty-ninth," a regiment com-  
manded by the bride's father during  
the war.

Good reading for Canadian Pacif-  
ic shareholders is furnished in the  
September statement of gross earn-  
ings, working expenses and net  
profits. It has been the most fa-  
vorable month for the company in  
a long time. The gross earnings  
were \$18,909,071, the greatest shown  
in any month since October, 1924.  
Operating expenses were \$12,641,-  
452 and the difference between the  
two, the net profits \$6,267,619, an  
increase of \$1,719,973 over the cor-  
responding month of last year. Net  
earnings for the first three quar-  
ters of this year, ending Septem-  
ber 30th, is \$1,190,039 greater than  
the 1924 figures, despite a decrease  
in gross earnings of over four and  
a half million dollars. This was  
made possible by the company's  
policy of rigid economy.

To bring the Arctic within the  
scope of tourist traffic is the object  
of the Marquis M. N. degli Abizzi,  
winter sports director at Lake Pla-  
cid, who is organizing pack horse  
trips of thirty days' duration next  
year from the Canadian Pacific  
Rockies as far north as the Colum-  
bia Ice Fields within the Arctic  
Circle. "We are going to swim our  
horses and outfit across the Sak-  
atchewan River and camp near the  
sources of the Athabasca which  
empties into Great Slave Lake and  
thence into the Arctic," the Mar-  
quis asserts. The first of these trips  
is scheduled between June 28 and  
July 27 next year.

**SEAWEED AS A FERTILIZER**

Seaweed is a useful fertilizer for  
all classes of crops along our At-  
lantic and Pacific coasts where it  
can be collected at many places in  
large quantities at little ex-  
pense. It is especially valuable  
for roots, vegetables, and other  
plants with an abundance of foli-  
age, which required potash and  
nitrogen. A new pamphlet is-  
sued by the Chemistry Division  
of the Dominion Department of  
Agriculture gives the results of  
analysis of samples of seaweeds  
collected from different beaches.  
These analyses show that sea-  
weeds are essentially potassic in  
character and they also contain a  
high percentage of nitrogen. Ac-  
cording to the pamphlet which  
may be obtained free from the  
Publications Branch, Depart-  
ment of Agriculture, Ottawa, sea-  
weed compares very favorably,  
weight for weight, with barnyard  
manure, and besides it does not  
bring to the farm any weed seeds  
or insects or fungus pests. Its  
manurial value is greatly enhanced  
by its ready decomposition in  
the soil, rapidly liberating its con-  
stituents in forms available  
for plant nutrition. The best  
way to use it is to apply it direct  
to the soil as soon as possible  
after collecting.

**Canadian Dollar Remains Above Par**

NEW YORK Nov. 12.—With  
its technical structure plainly  
strengthened by the recent reac-  
tion the stock market made  
further progress on its recovery  
at today's opening. Expectations  
of a large extra dividend by  
General Motors at today's meeting,  
sent that stock up more than five  
points, making it the feature of  
the initial dealings. Gains of 1 to  
3 points embraced American  
Sugar, U. S. Steel, American Can  
Fisher Body, Studebaker, Owens  
Bottle and Baldwin.

With the stock market greatly  
strengthened by its recent reac-  
tion, prices early today bounded  
upward almost as rapidly as they  
fell earlier in the week. Expecta-  
tions of a large extra dividend to  
General Motors stockholders  
brought in a rush of buying  
orders for that stock, carrying it  
up more than six points, while  
Dupont soared almost 25 points  
to a record high, at 271. Chrysler  
rallied ten points, and U. S. Steel  
headed a strong upward move-  
ment in other pivotal industrials.

**CANADA MAKES RULES TO OUST SQUEALING SET**

Radio Branch of Marine and Fisheries Department Publishes Directions

Education of fans in the proper operation of regenerative receivers has been undertaken by the radio branch of the Department of Marine and Fisheries of Canada. It is an attempt to reduce the amount of interference to radio reception caused by squealing sets.

To get the best results from such receivers and still keep from interfering with other fans enjoyment, fans are asked to follow these rules:

1. Practice on tuning powerful stations first and do not try to pick up weak distant stations until you become expert.
2. Use both hands, one hand on the regeneration control and the other hand for the tuning control.
3. Keep the regeneration control always just below the point of oscillation, your set is then in the most sensitive condition. This is the reason for using your two hands for tuning.
4. If your set then accidentally breaks into oscillation, turn back the regeneration control at once.
5. Do not try to find a station by the "whistle." If your set is turned just below the whistling point the signals will come in clear and your regeneration control can then be turned a little further to increase the volume!
6. Do not force regeneration in an attempt to obtain loud-speaker volume from a set not designed for the purpose.
7. Do not force regeneration in an attempt to hear stations beyond the range of your set; be content with those you can really hear.

Proven directions on each package. Physicians everywhere recommend it.

**Winter Time is Carnival Time in Banff**

Banff in winter time is fairyland. Shafts of the sun strike the white snow-covered mountains and valleys of the Canadian Rockies, changing them into a landscape of flashing iridescence. Colors—blue, red, green and purple—dance over the scene, as gaily costumed devotees of the snow shoe, the skate and the ski move in the pastel of the great outdoors.

Fancy skaters swing gracefully into intricate figures on the rinks. Ski jumpers thrill the spectators with their marvellous leaps through the air from the ski jump on the top of a nearby mountain. Ski-jorers dash down the Bow River behind fleet mountain ponies. Blanket-coated snow-shoe trampers take the trail to the snowy woodlands. In the evening, the brilliant scene is softened by the silver gleam of the moon.

Winter time is carnival time in Banff. February 3rd to 17th has been set for the 1926 Winter Carnival, and Mrs. Basil Gardom has been chosen as the fair Queen. A splendid palace of glittering ice, sparkling with myriads of bright colored electric lights is being built for the chosen beauty. With true regal pomp and splendor she will be crowned and seated on her throne as the culminating triumph of the carnival.

Trains pull into the station at Banff. Passengers on their way west stop off to disport themselves in the snowy, gay little town. Passengers on their way east delay long enough to see the famous ski jumpers breaking world records. Passengers from both east and west with Banff as their objective, and snow shoes, skates and skis in their luggage, hurry to attend the festivities in honor of the carnival queen.
