TO CORRESPONDENTS.

Correct answers received from Lizzie, Œdipus, The Drake and The Owl. Contributions received from the two former. By some misfortune the algebraic problem from P. C., Ben Miller, has been mislaid, and we would be pleased if he would rewrite it.

"A DOSE OF JOLIN EVERY WEEK."

FLEMINGTON, Hunterdon Co., N. J., June 26, 1874. Dr. R. V. Pierce, Buffalo, N. Y.: *Dear Sir*—It is with a, happy heart that I pen these lines to acknowledge that you and your Golden Medical Discovery and Purgative Pellets are blessings to the world. These medicines cannot be too highly praised for they have, almost brought me out of the grave. Three months ago I was broken out with large ulcers and sores on my body, limbs and face. I procured your Golden Medical Discovery and Purgative Pellets, and have taken six bottles, and to-day I am in good health, all those ugly ulcers having healed and left my skin in a natural, healthy condition. I thought at one time I could not be cured. Although I am but poorly express my gratitude to you, yet there is a drop of joy in every word I write. God's blessing rest on you and your wonderful medicines in the humble prayer of Yours truly, JAMES O. BELLIS.

When a medicine will promptly cure such terrible eating ulcers and free the blood of the virulent poison causing them, who can longer doubt its wonderful virtues? Dr. Pierce, however, does not wish to place his Golden Medical Discovery in the catalogue of quack patent nostrums by recommending it to cure every disease, nor does he so recommend it; but what he does claim is this, that there is but one form of blood disease that it will not cure, and that disease is cancer. He does not recommend his Discovery for that disease, yet he knows it to be the most searching blood cleanser yet discovered, and that it will free the blood and system of all other known blood poisons, be they animal, vegetable or mineral. The Golden Discovery is warranted by him to cure the worst forms of skin Diseases, as all forms of Blotches, Pimples and Eruptions, also all Glandular Swellings, and the worst form of Scrofulous and Ulcerated Sores of Neck, Legs or other parts, and all Scrofulous Diseases of the Bones, as White Swellings, Fever Sores, Hip Joint and Spinal Disease, all of which belong to Scrofulous diseases.

GODS AND GIDS.

The St. Louis Republican says that Grant's friends are into at once.

A rush light—a loud light on an express train.

What work one must always have his glass before he can do a day's work? A glazier.

A gentleman with considerable hair on the man in the moon.

What does a young fellow do like when he first puts his pantaloons on? A trial-lion.

It is said full an inkling of a conspiracy! Because he offers a quill to every one he meets.

There is a gentleman in Clinton who is so noted for his resting industry that nobody ever saw him staying any.

You cannot expect a man to stand corner for him when he has been knocked down for making an erroneous statement.

The threatened financial crisis in Austria will not cause the people there any serious alarm. It's always easy to find a V in Vienna.

"You are a brilliant and versatile bouquet of loveliness," he said, with a voice that was low and soft, and in response she warbled, "Dry up, George; you've said enough."

Toronto has a city cost of arms. Why can't we have one too? A design representing a citizen mortgaging his house to pay a lawyer's bill would please the people.

That was a dreadful threat of an excited journalist—"I'll twist you around your ears three times and then see what's left of you but the ends of your shirt collar sticking out of your eyes!"

A Southern bookbinder bound up eighteen dime novels between Bible covers, and a preacher carried the book home, where his wife mistook his arm to rest some consoling passages to a dying woman.

A Chicago man has not been bothered by his wife to get worsted for her since the morning he appeared pleased to do such an errand, and incidentally spoke of the engaging young lady who tended the worsted counter.

Scene, a butcher's stand. Butcher:—"Come, John, be lively now; break the bones in Mr. Williams's chops and put them in Mr. Smith's ribs in the basket for him." John (briskly): "All right, sir; just as soon as I've sawed off Mrs. Murphy's leg."

"When one takes his Sunday afternoon nap and has an ugly dream," asks a correspondent, "can you call it a nightmare?" Not exactly; perhaps it may be more proper to say that the dreamer has only a little colt in his head.

In England they tell how Sankey walked up to a grenadier, and, taking him affectionately by the belt, said,—"Young man, I likewise am a soldier, a soldier of heaven." "Old 'un," returned the grenadier, "you're a long way from your barracks, anyhow." Well, there was a very rough young man, whom Sankey saw staring around at the close of the meetings, and kindly asked, "Young man, are you looking for salvation?" "No," was the reply, "I am looking for Sal Jackson." "Let us sing a hymn," said Sankey.

WAR AND COMMERCE.—It is urged by some that English trade has gained largely by the Franco-German war, and that she has been serving both belligerents to the great advantage of her commercial interest; but official statements prove that such has not been the case. But it is true that the sales of the "Canadian Pain Destroyer" are rapidly increasing, and gaining the confidence of the public, for curing coughs, colds, rheumatism, neuralgia, summer complaints, &c For sale by all Druggists and country dealers. Price 25 cents per bottle.

READ THIS TWICE.—Five to thirty drops of Thomas' Eclectric Oil, will cure common Sore Throat. It never fails in Croup. It will cure a Cold or Cough in twenty-four to forty-eight hours. One bottle has cured Bronchitis of eight years standing, recent cases are cured in three to six days. It has restored the voice where the person had not spoken above a whisper in five years. As an outward application for all cases of pain or lameness, nothing like it has ever been known. One bottle will cure any case of Lame Back or Crick in the Neck. For diseases of the Spine and Concussion of the Muscles it is unequaled. In Rheumatism or any other pain the first application does you good. It stops Ear Ache and the pain of a Burn in three minutes, and is altogether the best and cheapest medicine ever offered to the public—the cheapest, because it takes so little to do you good. It is composed of six of the best oils known, and nothing but oils. It is worth its weight in gold. Why not buy it to-day?—A. Dos Rochers, as latant postmaster, Arth Oaskaville P. Q., writes:—"Taltet on years ago I was seized by a violent attack of Rheumatism in the head, from which I have nearly constantly suffered. After having used "Thomas' Eclectric Oil" for nine days, battling the forehead, I have been completely relieved and have only used the bottle. This I can testify under oath if you wish."—Asher J. Maloy, Wyandotte, N. Y. writes: "Dr. Thomas Eclectric Oil cures one of Bronchitis in one week. Deems all over the country say, "We have never sold a medicine that has given such complete satisfaction as th s" I did by all medicine dealers. Price 25 cts.

IMPROVE NUTRITION.—The central idea in the treatment of all Chronic Wasting Diseases, resulting in nervous prostration and general debility, is to improve the Digestion and Assimilation of Food, and the formation of Healthy Blood. Dr Hamilton's Compound Elixir of Phosphates of Calisaya contains the only agents known that act directly as restorants of nutrition, by imparting tone to the Stomach, Liver and Kidneys, the general trio that prepares nourishment for building up the organs and tissues of the body. The action of this remarkable preparation is extraordinary in strengthening and vitalizing the constitution, thereby impairing by age, intemperance or bad habits, or run down by old comp aints that have resisted all ordinary meth ds of treatment Being a de icious cordial to take, and perfectly harmless under all circumstan es, it is eminently adapted to prostrate anem c women and delicate children.

Fashion Notes.

Guipure lace is not as fashionable trimming for black cashmere as wool braid, fringe, or silk plastings. Put one wide row of braid above the hem on the upper skirt. Have a ten-inch bias silk flounce in double box plaits on the lower skirt. The box-plaat is about an inch wide. Wood-color is yellowish-brown, like oak.

Another speaks of her daughter as "Miss Mary" or "Miss Sarah" when mentioning her to the servants who are expected to address the young ladies as "Miss Mary" when speaking to them.

If the crape veil hurts the eyes of the wearer, let her get gray grenadine for a face veil, and let the veil hang on the side or behind.

White stockings are prettiest with [illegible] clothes. For a boy baby of six months get a lace turban.

It is said that dark green, blue and brown grenadine dresses will be fashionably worn in the summer, though of course not to the exclusion of the favorite black grenadine.

The Oxford linens, which are all cotton, are very similar to those worn last summer, but the preference for these wash dresses is in stripped patterns of quaint colors, such as black, pink and white together, or else gray with blue, or blue with buff.

There is always a demand for glossy black goods, which shed dust, and are therefore the most economical for daily wear. Of these the finest is the Grand Opera brilliantine, which is almost as lustrous as silk in its appearance, and by no means to be compared with ordinary alpacas, retains its color to the last shred.

"Please, sur, what's the fare from Dublin to Glasgow?" inquired a son of the Emerald Isle one day of the clerk of a shipping office. "Eighteen shillings," replied the other. "An what d'ye charge for a pig or a cow?" "Oh, 1s. 6d. for a pig, and 3s. for a cow." "Well," replied Pat, "book me as a pig."

Family Matters.

HERE is a breakfast for Wednesday: Mutton cutlets, smoker with tomatoes, potato cakes, rice muffins. It is prepared as follows:

MUTTON CUTLETS.—Have the cutlets cut thin; trim off all fat. Put them in a thin bottomed frying pan with hot buttery; turn them continually; fry quickly.

OMELET WITH TOMATOES.—Beat up three or four eggs with one dessert spoon full of parsley very fine minced, and pepper and salt to taste. Put a piece of butter the size of an egg into a frying pan; as soon as it is melted pour in the omelet mixture, and, holding the handle of the pan with one hand, stir the omelet with the other hand by means of a spoon. The moment it begins to not cease stirring, but keep on shaking the pan for a minute or so; then with the spoon double up the omelet and keep shaking the pan until the under side of the omelet has become of a golden color. Put some stewed potatoes on a hot dish and lay the omelet on it.

POTATO CAKES.—Make cold mashed potatoes into flat cakes. Flour and fry in lard until they are a light brown.

RICE MUFFINS.—Take one cup of cold boiled rice, one pint of flour, two eggs, one quart of milk, one tablespoonful of butter, and one teaspoonful of salt; beat very hard and bake quickly.

Lard and drippings must be kept in a dry, cold place, and should not be salted. Usually the cellar is the best place for them. Earthen or stone jars are the best to store them in.

PORK AND BEANS.—Take one pint of long white winter beans, and boil them in water until done, and then have ready some fat sliced pork as if to fry; fresh pork, peppered and salted, or pickled side soaked in cold water over night; place the beans in a baking dish, put the meat on the beans, and bake until the meat is done.

It is said by an exchange that one drop of the essence of bitter almonds will communicate an agreeable taste and smell to an ounce of castor-oil, and not effect its medicinal action.

☞ The first approaches of consumption are so insidious that thousands remain unconscious of its presence until it has brought them to the verge of the grave. The immediate use of "Bryan's Pulmonic Wafers" upon the first appearance of the cough, pain or soreness of the throat or chest, would generally preclude a fatal result; therefore, when you take a cold use "Bryan's Pulmonic Wafers," and thus prevent the necessity for taking them in more dangerous complaints. To be obtained of all Druggists and country dealers. Price 25 cents per box

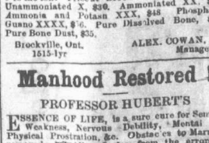
Iron in the Blood



MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and wastes, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, *and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.*

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

See that each bottle has PERUVIAN SYRUP *blown in the glass.*
