R. H. Cozzens, lumberman in Strat-In conclusion, we would say that we ford for some years, and who had been dangerously ill for a month, died at Sarwas the trouble. The deceased was 55 years of age at the time of his death, and was much respected by the great number of friends and acquaintances he had made here. The funeral took place Thursday at 11 a.m., to the G. T. R. source of education to the electorate of that great nation, and, be the result depot at the Point, en route for Orillis. Deceased was a member of the Masonic fraternity, and the funeral was attended by the Sarnia members and visiting brethern in a body. It was largely attended, testifying to the esteem in which was held. The following has been furnished concerning the life of the decease ed and shows the large extent of business life and otherwise which he cover-ed :--Mr R. H. Cozzens, whose death occurred here on Tuesday last, of drop-sy, was born in Albany, N. Y., in 1837, where received his education and grad-uated at the high school at the age of 16. Upon leaving school at this he en-tered the lumber district in Albany, being engaged by Mr W. Araold, with whom he remained for several years His first contention in the present cussion, and the fact that such will be while learning the inspection of lumber. After this period he went to New York

Reported Disappearance of the Surplus in

the National Treasury-Joint Debates

-A Flood of Campaiga Literature.

Washington, August 20, 1888.

Senator Allison says the treasury sur-

plus is gone, at least that for the current year is. It has been wiped out by the

unusually large appropriations made by

the present Congress. This discovery is likely to prove somewhat awkward for the tariff reformers, and has created a

veritable sensation here. An inquisitive genius, noticing the heavy appropriations

and harbor bill, and other things, started

in to do a little figuring. First, he got

the estimates of the Treasury Department for the receipts of the current facal year. Then he footed up the appropriations already made and those certain to be

made by Congress The startling result was that there was no surplus for this

year, or such a small one as not to be worth noting. It seems strange that such an important matter should have

been overlooked until this time. It is

will get through the House, at either this or the next session of the fiftieth Con-gress, likewise the Blair educational bill; for the passage by the House of either one of these bills would create a big deficiency. And last, but by no means least, it will have an important bearing on the andding comparison. If there is

on the pending campaign. If there is n

surplus no need can exist for reducing

taxation of any kind. The politicians are all worked up about it, and it may

result in the Republicans of the Senate abandoning their efforts to formulate a

aubstitute for the Mills bill. In the

meantime let everybody keep cool, and

pensions, public buildings, the river

From our own Correspondent.

The Republican Senators are still at work on the substitute for the Mills bill, although it is said that Mr. Blaine is endeavoring to get them to abandon the idea entirely, but the most prominent members of the finance committee say that it is not true, and that they are go-ing right shead with their bill, which they propose to discuss and pass before adjourning. They claim, too, that their substitute will be accepted by the House; that at least twenty Democrate will vote with the Republicans of the House for the substitute. Perhaps they will, and perhaps they will not. Time only can

There are many rumors here that Mr. Cleveland is dissatisfied with the management of Chairman Brice of the Democratic National Executive Committee and wants him to resign. Col. Lamont says these reports are faise, but still they are repeated and details entered into by

zossippers. The House committee on expenditures in the Treasury Department, to whom was referred the bill providing for the printing of Govornment securities in the highest style of art, hrve made their re-port. It amends the bill so as to provide that all Government securities,

bonds, notes, and internal revenue stamps shall be printed in the highest which connect the present with the past has been severed by the death of Mr. presses. It also changes the law so presses. It also changes the law, so as to require that the Chief of the Bureau of Engraving and Printing shall be a practical engraver or plate printer.

Joint discussions seem to be growing years ago, and lived for some time on of Indiana, have agreed to make a join years ago, and lived for some time on canvass, and now it is proposed that Amherst Island, whence he removed te Amherst Island, whence he removed te Speaker Carlisle challenge Mr. Blaine for the township of Ashfield, County of Huron, when it was a wilderness; where he continued to reside up to the time of make twelve sneacha a joint discursion of the tariff, each to make twelve speeches in as many prominent cities. Mr. Carlisle has already ex-pressed his willingness, and it is believed that the arrangement will be agreeable to Mr. Blaine. The speeches will cer-tainly draw large crowds, and the people will be well repaid for attending, if the arrangement can be carried out.

Some idea of the enormous quantity of tariff literature sent out from here, be gathered from the fact that up to date the House folding room alone has used this year 11,000,000 envelopes for This is 4,000,000 in excess of the number ever used before in a single year.

The House has been without a quorum over half the time since the passage of the Mills bill.

The naval cadets, who were sentenced o dismissal from the service for hazing, have had their sentences commuted by the President to one month's confine ment and the loss of half their snuual leave. The scare they received will do them good.

Men will work harder for a day's ples sure than they will for a week's wages.
