## YOUR MILKMAN'S FINGER TIPS ARE DANGEROUSLY FULL OF BACTERIA.

ON your milkman's hands,—unless he uses the care of a surgeon about to perform an operation,—there are millions of germs. When you remember that thousands of these infinitesimals can cluster with ease on the point of a needle, you can imagine what a milkman's hands look like under a microscope. Suppose when your milkman picks up an empty bottle to fill it at the dairy, he happens to grasp it in such a way that his finger touches the inside! Suppose when he is putting in the paper cap his hand rubs the under side! The only consolation one has is that the great majority of germs about us are not the germs of malignant disease. But some day—! Why—think of it,—in 1908 the Medical Health Officer of the city of Montreal seized and condemned 32 lids of milk cans and 68 cans themselves as being in a foul and unsanitary condition. How many of these germ-laden containers do you suppose are doing duty in St. John's undiscovered—distributing bacteria and spreading disease?

## Jersey Cream, Reindeer Milk.

**J**ERSEY CREAM is free from disease germs. The user of it runs none of the risk of the raw milk user; tubercular or typhoid infected milk has no terrors for him. Jersey Cream is simply a rich, pure, whole milk with two-thirds of the water evaporated. No sugar—no preservatives—are added; the sterilization makes it keep. And nothing is taken from it but hot water; not one single unit of food value is lost. Indeed, the Dominion Government food experts place the nutritive value of Jersey Cream above all other evaporated milks. They analyze it as having butter-fat at 3.05 per cent. In Jersey Cream you get the whole milk just as it came from the cow, then sterilized and hermetically sealed so that it reaches you as pure and wholesome as it was the day it was milked from the animal. If you add the right proportion of water to Jersey Cream you obtain a rich milk on which the cream will rise naturally. It is because Jersey Cream is thus a "whole milk" that you get a richness from its use in milk dishes that you never get with any raw milk. And being unswetened, you can use it for cooking. But it is to the cleanliness

of Jersey Cream and Reindeer Milk that we want to draw your attention. Jersey Cream and Reindeer Milk are clean because we make a business of cleanliness; from the moment the milk leaves the cow until you open the can in your home, we guard it against contamination. When a farmer begins to sell milk to us, he has to conform to our "Dairy Rules," and to obey our inspectors. We insist upon sanitary cow stables, correct rations for the cows; we enforce hygienic milking methods, prompt and thorough aerating and cooling of the milk, and we make the farmer drive his milk to us well covered to prevent contamination from dust and heating—and in a spring wagon. And then, even after all this, every drop of milk a farmer supplies us has to pass our expert testers for quality and flavor. Every can in every batch is rigidly inspected—and what's more, the rule against milk with even the slightest taint is rigidly enforced. That's how we maintain our usually high standard. Finally, when milk reaches our plant—where more than half the time of each employee is spent in keeping every piece of apparatus and utensil scrupulously clean—the first thing that is done is to put the en-

tire contents of each can through a sterilizing process. You are beginning to realize, aren't you, what Jersey Cream and Reindeer Milk can mean in your home? Remember to be sure to ask for JERSEY Cream and REINDEER Milk by name—JERSEY Cream and REINDEER MILK. Reindeer Milk owes its Richness, Purity and fine Flavor to the high quality of the milk used, and to the careful attention given to details at every stage of the process of preparation. Absolutely nothing but the best granulated sugar is added to the full rich milk of the best dairy district of Canada.

### Remember THIS!

YOU CANNOT DRIFT TO SUCCESS.  
It's a good deal easier to drift with the stream than to swim against it. But there's neither glory nor safety in drifting; the world reserves its applause for the man that opposes the current and forces his way to the Harbor. The stream of life has always crowds of drifters trusting to currents of luck to float them to the Harbor of Success. That's why so many bachelors wear looks of disappointment. Their bright dreams of youth have faded with the years, their age has no refuge. Not a pleasant prospect to think about, is it? But you'll do well to think about it now while there is still time to provide for the future; it is not too late to catch up with the crowds of House Furnishers; begin to-day. Secure your partner, visit our store and you will certainly buy.

**CALLAHAN GLASS & COMPANY,**  
THE BIG FURNITURE STORE.  
Duckworth and Gower Street, St. John's.
