LONDON, To-day. An interesting feature of the equipment to be used by Shackleton in his proposed expedition next year across the Antarctic Continent, will be sledges driven by aeroplane engines and an aeroplane with clipped wings to aid in propelling the sledges over the ice. The trans-continental party will consist of six men and 120 dogs. The animals will be chosen by those accustomed to team and pack work in Alaska and Siberia. They will be handled by Canadians. Sir Ernest Shackleton plans to land at lat. 75 degrees South of Weddell Sea, at the beginning of November, 1914, and expects to reach Ross Sea the other side of the South Pole in March, 1915. The expedition will have two oil-driven ships.

New Specialties for Pantomime.

There will be great changes in the Pantomime on New Year's Day. New dances, new songs and costumes. The pantomime is drawing big crowds, and is the town talk. Everybody has been delighted. His Excellency Governor Davidson, Mrs. Davidson and family visited Rossley's yesterday and expressed themselves delighted at the performance and stayed until the finish. Every night all the best seats are filled with our prominent citizens and the private box sold out every night. A beautiful sight and one that will never fade from the memory of those who have seen it. Jack and the Bean Stalk next.

Hr Grace Notes.

Mr. John Brimble has been confined to his home for the past few days, suffering from a severe cold.

The ladies of St. Peter's Church, Southside, are determined to make 1914 a record year in their church aid work, as they are opening their Sale of Work on Wednesday next, 31st inst., and will continue it on Thursday, Jan. 1st. We wish them a Happy and Prosperous New Year.

Mr. C. Pike, of Water St. West, lost eleven fine fowls on Christmas Eve night, the birds having been stolen from the poultry house on that night. It is very much to be hoped that the police will be successful in rounding up the guilty parties.

Mr. Dugald Munro spent Christmas Day here with his friends who were all glad to see him.

Miss M. Butt, teacher of Victoria Street School, is in Bay Roberts spending her holidays with her sister Mrs. Dawe.

Mrs. Arthur Bennett, of St. John's, went to Carbonear on Tuesday last to spend a few days with her mother, Mrs. W. H. Soper. She returned home by Saturday evening's train.

The members of the Conception Bay British Society, accompanied by its Juvenile Branch, will hold their annual Church parade on Thursday next, New Year's Day. They will attend Divine Service at St. Paul's Church.

A very interesting case in on in the District Court to-day before Judge Oke. It is in the nature of a family quarrel, and is a rather complicated affair. His Honor will have quite a lot of summing up to do, but he will no doubt arrive at a satisfactory arrangement for one if not more of the parties. It will be a rather difficult job to please all.

HR. GRACE, Dec. 29, 1913. —COR.

WEATHER.—It is calm and fine up the country to-day with a temperature ranging from 5 to 22 above.

Living in a Hurry 70 Years Ago.

"Here is a remarkable passage from Chamber's Journal, dated Saturday, April 6th, 1844, entitled 'Living in a Hurry.' Not a single syllable of it has been altered, added, or omitted," says the World, which republishes it. "Perhaps the most characteristic peculiarity of the social condition of England at present is the unhealthy want of repose. Travelling by rail-road is merely typical of the headlong hurry with which all the affairs of life are transacted. In business, men are in a hurry to get rich; they cannot submit to the tedious process of adding one year's patient and legitimate gains to those of its predecessor, but seek by bold speculative combinations, by anticipations of intelligence received through the ordinary channels, to make or mar themselves by one bold stroke.

"The devotees of pleasure seek, as it were, to multiply their personal presence—not only by rattling to a dozen assemblies a night as has been the worshipful practice in London during the gay season for some hundred years, but by shooting in the North of Scotland and yachting in the Channel during the same week, visiting Palestine and the Pyramids during the Parliamentary recess, and other feats of celerity.

"In the young societies of our colonial empire (and this is not their least recommendation) men might live more leisurely if they chose; but the gigantic bankruptcy of New South Wales shows too clearly that even in our antipodean provinces this foolish effort to accomplish everything at once is epidemic.

"It is not difficult to realize that this is not a burlesque of certain articles that frequently appear in our present periodicals."

A Big Fire in Montreal

Special to Evening Telegram.

MONTREAL, To-day. The fears that had been expressed of danger to property in the city during the water famine were realized yesterday when a big block of stores at the corner of St. Hubert and Ontario streets caught fire and made rapid progress because the firemen could only pour feeble streams of water upon it. In half an hour twenty-two 3-storey buildings were gutted, sixty autos destroyed and the damage estimated done is \$285,000. The firemen with only one stream of water since the famine on Christmas night fought for an hour and a half, in which time the buildings were in ruins. During the course of the blaze one fireman was injured. The brigade laid seven thousand feet of hose with two engines relaying to bring the pressure of the single stream up to efficient strength. With the longest hose laid in the department's history, the firemen succeeded in preventing the flames from getting down to a tank containing two thousand gallons of gasoline, six feet under the basement of the doomed structures. There was an adequate supply of dynamite on hand to raise the adjacent buildings, if the fire got beyond control. When the fire broke out the firemen and police saved twenty automobiles, but sixty were destroyed. As a result of the blaze and the absence of adequate water supply for the firemen some sufferers have announced their intention of taking a suit against the city.

MISSION SHIP ARRIVES.—The Deep Sea Mission ship George B. Cluett, reached port to-day from New York, after a ten days' passage. The latter part of the voyage was very rough. The vessel brought a cargo of coal for the King George the Fifth Seamen's Institute.

OUTRAGEOUS MUMMERING.—Last night a gang of women belonging to the Battery, were out mummering. They carried the sport too far by breaking into a house on Signal Hill, started to run matters their own way, and when ordered out retorted with abuse and some of the language used is very rarely listened to by members of the sterner sex. They will be prosecuted.

Good Demand for Fish.

The following letter has been received by the Board of Trade from Oporto:—

"During the past fortnight there has been a better demand for imported fish owing to the Christmas sales, but this week when sales should be at their best there is an extraordinary falling off which is difficult to account for but is probably due to the large quantity of Portuguese cure now coming on the market in fine condition.

Paris, Dec. 19.—Jack, day still heavyweight world, but he came out with his title in a ten-round fight Jim Johnson, the boxer who hailed from here last night. It was his first appearance in a ring since he had gone a few rounds ago. He was a little doubtful but that the would have changed him. The bout was a sad one to the crowd which gathered to the house to the doors. The scots near the ring, the son left the ring with a storm of hisses. A great many of the judges declared the ruling which net with favor.

The champion was when the bell put an end to the fight. The referee, who had a broken arm, was ordered, and the contention of the crowd that it failed to save. The doctor announced had broken the radius left forearm. "When does he say," shouted some one in the crowd, "the reply was sent to the jury was sustained in the This announcement was more jeering and hissing. The referee had failed to make of an injured arm at later.

His Skill Saved

Johnson fainted with fatigue, and showed no time skill in this part. It was science alone that from being knocked out rounds. It was the attention among the spectators that had been sustained. The referee had failed to make of an injured arm at later.

Both men jumped to Jack was plainly exhausted against the ropes.
