Notes From Trepassey

Monday evening's train arrived here on time and brought two gentlemen Hutchings, who have come here for salmon fishing up the North West salmon fishing up the North Brook, and we are glad to hear that up to date they have secured a good catch of 25 salmen for the first day, and report the fish very plentiful. s in fact one of our best fishing resorts. We are surprised to see only two sportsmen from the city. Where are our local Waltonians? Way is it they do not come? Visitors may secure good accomposation and a good guide any time and anyone anxious to come may secure all information required on landing here, and beside may drive from the train to the pools or if preferable, go by boat.

We are also glad to say that all the fishermen are doing fairly well, but the weather is a little to their disadvantage.

Salmon fishing at Biscay Bay is very good, but so far no visitors have arrived. It is nothing unusual to see little boys coming up from the river with 5 or 6 salmon. Any anglers coming there will be delighted with their trip, and I am sure will not return ram Dingbat with empty baskets. West; "she-thinks

Quite a number of people have spent a few days at Hell Hill this season, and most have returned delighted with their catches. One gentleman in particular caught a trout 17 inches long which is, I think, a record for Hell Hill up to date.

Everything on the Southern Shore seems brighter, and as the Garden Parties will soon begin we hope to see a number of visitors, was will be people only too glad to give them all information they may require.--COR.
