

The American Press on the Geneva Arbitration.

The American papers are far from being satisfied with the award made by the Arbitrators at Geneva in the cases of the Confederate cruisers.

"The petty sum of \$15,500,000 will doubtless be greatly diminished by the English claims against the United States which are yet to be allowed. Of course, the mere matter of money is the least important feature of so grave and authoritative a decision, which forms a sort of epoch in international proceedings.

"The World is not a bit better pleased with the decision. It says:— "We come out of court admitting that we have unjustly accused and abused Britain. Britain comes out of court admitting that she ought to indemnify a few of our citizens, who suffered through the carelessness of some of her authorities.

"Probably a more thorough imposition than the Treaty of Washington has never been palmed off as a great diplomatic triumph upon a credulous people. We have gained by it neither honor, credit nor pecuniary advantage.

Political Items.

The London (England) Daily News has the following in reference to the elections in Canada:—"The total numbers exhibit a marked gain on the part of the Opposition.

The Brockville Recorder says that Mr. Fraser has again been chosen as the standard-bearer of the Reform party in South Grenville, and there is no doubt but what he will be elected this time by a majority equal at least to that of Dr. Brouse over Shanly.

It is stated that Mr. Patteson, editor of the Mail, has received notification of the appointment of Hon. Wm. McDougall as his successor.

The Ottawa Citizen has been authorized to state that there is no truth in the rumors which are abroad to the effect that a reconstruction of the Cabinet is about to take place.

It is well known that Rufus Stephenson owes his return to the most flagrant acts of bribery. In the township of Raleigh, money was dispensed in the most unblushing manner; and in Tilbury East the same practice was pursued.

An engineer of celebrity in Italy has just been arrested at Florence for trying to poison at the same time no fewer than eighteen people. Among the number are his father, his brother, his wife and his children.

From returns of the eighth decimal census of Scotland, recently published by the Registrar General, it appears that the population of that country on the 3rd April, 1871 numbered 3,860,018, being an increase of 2.72 per cent. in ten years.

The Mount Forest Examiner says on Tuesday last Messrs. John Watt & Co., of that place, disposed of 310 firkins of butter, containing altogether about 31,000 lbs., to Mr. McKenzie, butter dealer, of Guelph.

FALL EXHIBITIONS.

- PROVINCIAL—Hamilton, Sept. 23rd, and rest of week. GUELPH CENTRAL—1st, 2nd, 3rd and 4th Oct. LUTHER—1st October.

The Australian and other Coal Fields.

Several official mining reports, recently presented to the Victoria Legislature, have been printed. These documents are "got up" in a superior style, with geological sketches maps of the Western port and Cape Patterson coal fields, also plans, sections, &c., and the earnestness of style and fullness of detail, combined with evident anxiety to draw just conclusions from the facts elicited by scientific surveys, prove how important are deemed the mineral treasures of that continent.

The Herald which generally wields a free lance when discussing foreign or international questions is quite disgusted with the whole affair, as may be judged by the following comments:—"A more thorough imposition than the Treaty of Washington has never been palmed off as a great diplomatic triumph upon a credulous people.

China has vast coal beds, which appear to be, geographically, of the same age as the Victoria, New South Wales, Tasmania and New Zealand beds. These Chinese coal deposits include beds of both anthracite and bituminous coal—worked for hundreds of years—and are probably the oldest coal mines in the world.

Carter's Election.

The gallant Minister of Militia has been returned, as our readers will be delighted to learn, for Provencher, Manitoba. The "Digger Indians" or their noble red brethren of the North-West, have not been flattered in vain for some time by the Government organs. They have shown that intelligence, so superior to the benighted citizens of Montreal East, for which the Halifax Reporter lately gave them credit, in returning the honorable Baronet by acclamation. They had, in fact, already shown it, as well as their admirable loyalty, by nominating Riel as their representative.
