

An important sale of short horn cattle from the celebrated Holker herd of the Duke of Devonshire, took place the other day at Holker Hall, near Ulverston, in England. Gentlemen and dealers from all parts of Great Britain, the Continent, America and New Zealand were present. The aggregate sum realized was £15,813. The Grand Duchess of Oxford, eleventh—calved in July, 1867—was sold for 1,000 guineas, and another cow of the same name was sold for ten guineas more. A bull calved in December last brought 450 guineas, and one calved in January brought 400 guineas.

Special Notices.

CALISAYA, THE BEST VARIETY of Cinchona or Peruvian Bark, first came into general use on account of its remarkable cure performed by it on the Countess del Chinchon, at Lima, who, after her recovery, distributed a large quantity of it to the Jesuits, in whose hands it acquired a great reputation, that charitable prelate, Cardinal de Lugo, having purchased it at a great expense for the benefit of the religious poor at Rome. It is combined with aromatics in a delicious cordial in Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, a remedy of extraordinary efficacy in restoring constitutional vigor, and repairing the worn out frame, whether used up by mental worry, over-work, excesses and bad habits, or debilitated by prostrating diseases.

SLATE ROOFING PAINT!

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slat may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slate, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof

against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and never cracks nor scales. For Fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheeting Felt can be made water-tight at a small expense. The Slate Paint is

EXTREMELY CHEAP!

Two gallons will cover over 100 square feet of shingle roof, or over 400 of tin or iron. No Tar is Used in this Composition, therefore, it does not effect the water from the roof, if turned off from the eaves before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and STOPS THE LEAKS. The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate color, and is, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least one hour after applying.

ROOFS EXAMINED. ESTIMATES GIVEN.

And when required will be Thoroughly Repaired.

Orders Respectfully Solicited.
