

# "VEILED WAR"

Description of the Situation in China.

Pekin's Walls Guarded by 100,000 Chinese Soldiers—The International Forces Make Slow Progress.

London, June 16.—This is the situation in China as it appears to the Shanghai correspondent of the Daily Express, telegraphing last evening: "It is really a state of veiled war. The members of the foreign legations in Peking are virtually prisoners, and the Chinese troops are only restrained from attacking them by fear of the legation guards. Meanwhile the ministers altogether are unable to communicate with the officers commanding the relief column, which is making an enforced and isolated halt between Tien-Tsin and Peking. The walls of the capital are guarded by 100,000 imperial troops. The gates are heavily defended by modern guns. Gen. Tung, acting under orders from the emperor dowager, says that no more foreign troops shall enter the sacred city. On Monday the ministers sent a demand to the Tzuang-Li-Yamen that the gates be opened, declaring that otherwise the foreign troops would enter forcibly. To this no reply was given. A second message went unanswered, or has not been answered since the latest news left Peking. Sir Claude MacDonald's latest message says that the legations are capable of maintaining an effective defense unless attacked by force. Russia, this correspondent asserts, notwithstanding assurances to the contrary sides with China. Some foreign troops are already reported to be in the environs of Peking, and the attitude of the Chinese troops is increasingly menacing.

## SEETHING MOBS.

"The streets of Peking," continues the correspondent, "are reported to be seething with anti-foreign mobs, clamoring for the destruction of the legations and the death of the foreign ministers. Even were the Tzuang-Li-Yamen disposed to restrain the violence of the reactionaries it is considered highly improbable that they will be able to hold them in check. For the foreign ministers the crisis will arise when the relief column comes in sight of Peking. It is still felt here that the foreign force is wholly inadequate to battle with the hordes of Chinese troops massed outside the gates, which now include the imperial troops from Shan-Hai-Kwan."

A disquieting element in the situation is the fact that, although the Russo-Chinese telegraph line from Peking, via Kiakhta (Eastern Siberia), is working again, the transmission of English messages is rigidly refused.

From Tien-Tsin it is reported that the foreign forces in the harbor will attack the Taku forts, and if necessary bombard them. The international column appears to be still at Lang-Pang, engaged in slowly repairing the railway, which, according to a dispatch from Tien-Tsin to the Daily Mail, dated June 14, cannot be effected for weeks. The force is short of provisions, and, as it is without field transport, it must stick to the railway.

The report that the mixed forces will seize the Taku forts is taken to mean that the foreign commanders expect no aid from the Chinese Government in repressing the disorder, and are determined to make Taku secure as a base from which to operate.

## GRAVE AS EVER.

London, June 15.—The news from China is confused, but the general trend indicates that the gravity of the situation has in no way diminished. Shanghai provides the usual crop of alarmist rumors as to the conditions at Peking, and the preparations to oppose the international forces, but there is a disposition in London to regard the safety of the legations and the equipment there as not seriously threatened at the present moment. Still, the slightest sign of a check to the international forces would put an entirely different face on the matter, and would probably lead to an outbreak of the rabble.

Besides the news of the burning of the French and British missions at Yunnan Fu is regarded as extremely grave, as it points to the extension of the rebellion to remote portions of the empire. The latest accounts say Gens. Tung and Ming are reported to be concentrating forces at Feng Tai, while

## THE DOCTOR'S ADVICE.

Led Mr. W. F. Lefflar, of Williamsford, Ont., to Use Dr. Arnold's English Tonic Pills.

He Was, in Consequence, Cured of Nervousness and General Debility—A Case That Shows the Wonderful Power of Dr. Arnold's English Tonic Pills.

Nine of every ten persons in Canada suffer from nervousness and general weakness of the system. The misery caused by these complaints is immeasurable. More money is spent every year for medicines for these diseases than would buy out half a dozen millionaires. And yet there is a cure, simple, sure and permanent, one that costs little and produces an effect that is absolutely unparalleled in the history of medicine. The medicine is known throughout the English speaking world as Dr. Arnold's English Tonic Pills for weak people. It has the effect of permanently cleansing the system of disease (and it has this effect by killing the germs that cause the disease). Besides killing the germs, and disease, it counteracts the poisons (toxins) they create in the blood; it braces the nerves, purifies the blood, and revitalizes the whole system. Dr. Arnold's English Tonic Pills are prescribed by many of the most successful physicians in their private practice.

Here is a case that shows the power of this wonderful medicine over nervousness and general debility.

"I suffered for months with nervousness and general debility. I was utterly miserable, unable to sleep, and constantly in the most depressed spirits. My nerves were twitchy, I had splitting headaches, and was as weak as a child. My family physician, Dr. — advised me to use Dr. Arnold's English Tonic Pills. I bought and used three large boxes which, I am happy to state, cured me completely. I am now hale and hearty, strong and vigorous in every muscle, nerve and limb; thanks to Dr. Arnold's English Tonic Pills."

W. F. LEFFLAR, Merchant

Dr. Arnold's English Tonic Pills are sold by all druggists; large box 75c; small box 50c; or sent postpaid on receipt of price by the Arnold Chemical Co., 125 King Street West, Toronto.

Gen. Nieh, who killed a number of Boxers, has been degraded. The Pall Mall Gazette continues to support the view that the initiative in the present crisis can best come from Washington, saying, as the disruption of China has been stayed in the past by the intervention of the United States, a similar intervention will have the same effect now and so save the mercantile world considerable losses.

## SOME MISSIONARIES SAFE.

New York, June 16.—The following was received today from Tien Tsin: Tsunhua safely arrived here. Shang Tung is ordered to Chin Kiang. Peking is in a very dangerous state. Chinese army is quite uncertain. [The first sentence of the above dispatch disposes of the rumor circulated a day or two ago that Miss Terry had been murdered. She was at Tsunhua, and all the Methodist missionaries there have, it appears, arrived safely in Tien Tsin. Chin Kiang is on the Yangtze River, about 200 miles above Shanghai. The Shan Tung missionaries will go there if they can.]

## THE MOB RULES.

Washington, June 15.—The cabinet meeting today lasted until the afternoon. Much of the time was devoted to the discussion of the Chinese situation, which is regarded as critical. No effort will be spared, should the occasion arrive, to protect the lives and property of American citizens.

The United States consul at Tien Tsin, Mr. Ragsdale, says that the mobs are in control of the native city of Tien Tsin, and the authorities do not seem to be able to do anything with them. He adds that the foreigners in Tien Tsin are still safe. The surprising feature of this telegram is the announcement that the Boxers are operating freely under the very guns of the United States, for it is understood that several Russian gunboats are lying off Tien Tsin, which is also the depot of the relief column. Fortunately the Nashville and Monocacy are just about due at Taku, and one of these vessels will soon be able to command the situation at Tien Tsin.

## PRESBYTERIANS

Doings of the General Assembly at Halifax.

Financial Statements and College Reports Presented.

Halifax, N. S., June 15.—Yesterday afternoon was college afternoon at the Presbyterian general assembly, the greater part of the time being devoted to the reception of reports from various institutions of learning under the supervision of the church. The general tone of the reports was that of prosperity. The report of Queen's College was reported by Principal Grant, giving a resume of the year's work. The report of Morin College, Quebec, was next called for, but no report was forthcoming. Dr. Warden intimated that he had received a communication from the secretary of the board of governors stating that they did not contemplate giving any printed report this year. Mr. Tait, of Quebec, reported that on account of the small number of students and scarcity of funds the governors had discontinued the work and are now considering what is to be done with funds invested. It is probable that these will be devoted to higher education in the city of Quebec.

Dr. Herridge, of Ottawa, reported that the commission appointed last assembly to confer with the governors of Morin College. The conference was held in November last, at which commission it suggested that part of the endowment should be used for higher education in Quebec and part for endowment of a chair in some one of the colleges already existing in the church. He could give no information as to whether the recommendation was likely to be carried out. It was moved by Dr. Warden, and seconded by Dr. Sedgewick, that the commission be continued in office and report at next assembly. Dr. McKee, principal of Morin College, insisted that this would serve no purpose, because there would be no representation of the part of the governors. No money will be given to other colleges of the church. Mr. McKee said the college had been a failure from the first. Its history told of misconception, mismanagement, inefficiency and indifference upon the part of the assembly. Its closing in no sense a calamity to the church. The governors think the assembly has no right to interfere and that all money invested should be used for further educational work in Quebec.

Dr. Grant held that there was nothing to be done but pass a motion. The governors had always reported to the assembly, and the assembly had the right to know what was to be done with the funds if the college was closed. This was the mind of the assembly, and a motion for continuance of the committee was adopted. Rev. Scott, M.A., of Montreal, editor of the Presbyterian Record, and Mr. J. R. McLeod, of Three Rivers, were appointed to represent the assembly on the board of governors of Morin College. The report of the Presbyterian College, Montreal, was submitted by Principal McVicar. The local statements show a balance on the right side of \$12,720. George S. Morris contributed an endowment of \$2,500 to the library fund. Mr. George S. Morris, of Montreal, has founded a traveling fellowship of \$500 a year with a view of raising the standard of theological education. Fellowship is to be awarded next year, and the holder is to prosecute his studies in Europe or the United States, under the supervision of the faculty to which body he is to make report.

Principal Caven presented the report of Knox College, Toronto. No students were admitted to first year of preparatory course. After next session this course will go out of existence, in pursuance of the wish expressed by the assembly in 1893. Dr. Caven contradicted the report that the missionary zeal of students was decreasing. Of graduates of the past three years, 91 per cent had gone to the Northwest. The board is anxious to appoint a professor of apologetics, and asked leave to do so when the funds permit. Upon motion of Dr. Caven the report was adopted.

Rev. C. B. Pitblado reported for the college at Winnipeg. During the year Dr. Faterick, of Dundee, Scotland, had been appointed principal, and he has entered upon his work with goodwill. He and Prof. Kilpatrick, lately appointed, have instilled new life into the institution, and already the influence has been felt. Dr. Pitblado dwelt upon the importance of the work in the west and of the relation in which the college stood to that work. Dr. Robertson, in seconding the motion for the adoption of the report, urged upon the assembly to come to the help of the college in this matter. They had promised to support the work, and must not fail to fulfill their promise. The men of the west must be trained for work in that wide country.

The report of the finance committee,

eastern section, was presented by Mr. J. Macintosh, of Halifax. The death of the agent, Dr. Morrison, had thrown more responsibility upon the commission, and they had exercised the greatest care in the management of the funds. A plan is under consideration which will place the fund in sure and safe condition, and really make the entire fund an insurance for each of the small funds.

Dr. Warden presented the report of the finance committee of the western section. Despite the drawing upon the people during the year, contributions in the west were the largest in the history of the church. The last special appeal was on behalf of the India famine fund, and as a result \$60,000 was contributed. This shows the ability of the people to give when there is a will. Last year the expenses of administration in the west was less than 3 1/2 per cent. No business in the country of such magnitude is administered so cheaply. In the United States the cost of administering departmental stores is 22 to 23 per cent; in our own country the usual cost of administration of large trusts is not less than 16 1/2 per cent.

The assembly's committee on enrollment reported that the return had been received from 55 presbyteries, nominating 905 and 235 elders as commissioners to assembly.

## ON A SOLID BASIS

Report of Executive Committee, Canadian Woodmen of the World—Doings of Macabees.

Niagara Falls, Ont., June 16.—A meeting of the executive council of the Canadian Order of the Woodmen of the World, was held here Wednesday evening. The following were present: C. C. Hodgins, Lucas; W. C. Fitzgerald, London; Clarke Moses, Caledonia; J. B. Hoover, Clinton; Dr. Harrison, Toronto; D. Cinnamon, Oshawa; T. H. Luscombe, J. H. Saunders, London; H. Blackmore, St. Thomas; Q. H. Taylor, Brantford. This was a regular meeting. The report of the head clerk of the work of the order since Jan. 1 is most encouraging. There has been a large increase in the membership and receipts of assessments. The death rate is very low, showing the order to be doing very safe business. The business transacted at this meeting was principally that of guiding the organization work and extending the field. The members of the executive were jubilant over the standing of the order throughout the country and the solid basis it is working on. The receipts in the different funds for the last five months amount to \$29,344.06, and the disbursements \$21,736.20, leaving a balance of \$7,607.86, which with \$15,600 invested, is a total of \$23,147.84, and with \$5,500 of May assessments in process of collection is a grand total of \$28,647.84. This is a showing of the society the age of the Woodmen should feel proud of. The members of the executive during their visit here took in all the sights at the Falls.

## GRAND TENT OF MACABEES.

Grand Rapids, Mich., June 16.—Major Boynton, of Port Huron, won a victory Thursday in the annual election of the Macabees. What promised to be the hardest fight he ever had on his hands petered out at the finish, and he was re-elected great commander for Michigan, with little opposition. The vote stood, Boynton 1,520, Hall 561, and Carlton 10. For lieutenant-commander, Fred Cutler, of Ionia, had a majority of 89 over all. Thomas Watson had but 124 votes against him for great recorder-keeper; Robert J. Whaley, of Flint, was re-elected finance-keeper, and Dr. James A. Fraser, of Roscommon, great medical examiner. J. D. Long, of Detroit, and E. J. Williams, of this city, were elected upon the executive board.

## GREAT HIVE, L. O. T. M.

The Great Hive, L. O. T. M., spent most of the forenoon in financial matters. The salary of the great commander was fixed at \$1,500, a raise of \$200. The salary of the great recorder-keeper was fixed at \$1,500, with \$200 extra for editing the official organ. The salary of the great finance-keeper was fixed at \$1,000, a raise of \$200. The following allowance for rent were made: Great recorder-keeper, \$300; great commander, \$100; great medical examiner, \$200. Heretofore the amounts of the bonds have been fixed by the executive committee, but this time the convention determined upon them. The great recorder-keeper's bond is \$15,000, and the great finance-keeper's bond \$75,000. It was decided that they should be bonded in an indemnity company. The election of officers for the L. O. T. M. was very harmonious. Mrs. Rachael Bailey won out for lieutenant-commander; Rose E. Colgrove, for recorder-keeper, and Dr. Emma D. Cook, medical examiner.

I believe MINARD'S LINIMENT will cure every case of Diphtheria.

MRS. REUBEN BAKER.

I believe MINARD'S LINIMENT will produce growth of hair.

Stanley P. E. I.

I believe MINARD'S LINIMENT is the best household remedy on earth.

MATTHEWS FOLEY.
