CARNEGIE AND THE TARIFF.

He Does Not Fear the Wilson Bill-

Others Denounce Him. PITTSBURG, Jan. 8 .- Andrew Carnegie is being denounced by iron and steel manufacturers and labor leaders. In an interview in New York he said the Wilson Bill would be all right if a few changes were made. To his competitors Mr. Carnegie's remarks are accepted as further proof that he wants the tariff on iron and steel products reduced to such a figure that, by reason of his improved machinery and low wage scales, they would be at his mercy. President Garland, of the Amalgamated Association Iron and Steel Workers, said

to-dy:

"There can be no further doubt regarding Mr. Carnegie's change of views on the tariff. He is now in a position to defy other manufacturers, and does not need the tariff. His scheme of keeping his mills running at a loss is doing more harm than good. He is underbidding his competitors and getting all the business of the country. The other manufacturers are getting norders. While the Carnegie employes have steady work at low wages, other workmen, especially in the west, are idle. Instead of booming business Mr. Carnegie is killing 12."

This little piece of repartee occurred during the hearing of evidence in connection with a charge of malicious damage to property preferred by the gentleman first mentioned against three small boys -Howard Ensign, Benjamin Snider and Lorenzo Cake. It appears that early in November the windows of the complainant's pigeon-house were broken and several of the feathered inmates killed. The matter at the time was partially settled, but, owing to some unaccountable reasons, was recently again disinterred. Moore claimed \$10 damage. Mr. Moore at the time of his loss, was away, and Mr. Love insinuated that some of the pigeons might have been starved to death. Mr. Moore waxed indignant. The difficulty was finally settled by the boys promising to make good the loss. An enlargement of the case for a week was regis-
