C. P. R. EARNINGS hair and forehead were damp with Gross Revenue For the Calendar Year

Will Be \$100,000,000. Sunday came and went, and, despite Montreal, Dec. 20.-It was today

my prediction to Nat, Roger Yorke estimated by finance officers of the Canadian Pacific that the gross revenue of the system for the calendar year would amount to \$100,000,000. year would amount to \$100,000,000, of about \$5,000,000,000 in excess of the revenue of the Dominion for the current fiscal year, which was estimated by Mr. Fielding in his budget speech at \$95,000,000. This estimate, while only approximate, since the year is not ended, is

based on the earnings to date, with the probable takings for the balance of the year, based on last year's figures. The earnings published monthly include the railway system with the lake steamships, etc., but not the takings of the Atlantic and Pacific Railways, the hotel systems, etc. The earnings as shown will amount to \$85,000,000 by the end of the year,

and when to this is added the gross takings of the two ocean steamship services, hotels, telegraphs, etc., it is estimated that the takings will equal \$100,000,000. A sign of the confidence of the British people in the Canadian railway is shown by the fact that al-
