NO BRICKS FOR CHICAGO

Strike Ties Up Building Operation Involving 47,000 Workmen. Chicago, May 26.—Three hundred

Chicago, May 26.—Three hundred building contractors, who have working agreements signed with 47,000 workmen, are idle because of the brickmakers' strike, in which only 2,500 men are directly involved.

Brick shipped here cannot be utilized, because the teamsters are in sympathy with the brickmarkers, and refuse to haul it. Work represented by more than \$40,000,000 worth of building contracts can not be started in an effective way because the contractors are unable to get brick.
