How many hairs has a Bear?

We doubt if there is any person in Canada who is so interested in Furs, and who does not admire their beauty, softness and warmth, but how many have ever thought of the great number of hairs required to cover a skin to produce this warmth and softness?

The actual number of hairs on any given skin can be accurately determined by mathematics and an abundance of patience.

We have cut a piece out of a black bear skin, one inch square in size—have sealed and deposited it with the bank and are giving

\$300.00 IN PRIZES

to the 64 persons who are nearest correct in their estimate of the actual number of hairs on that one square inch of black bear skin.

This contest is entirely free to every one who complies with the conditions and we might frankly state that the sole object of this contest is to familiarize as many people in Canada as possible with the wonderful bargains they can secure in stylish guaranteed Furs and Fur garments, through Hallam's system of dealing direct "From Trapper to Wearer".

Just send today for a copy of the 1916-17 Edition of

HALLAM'S FUR STYLE BOOK

on the back cover of which are full particulars of this Zoological contest.

This 1916-17 edition is a handsomely printed 32 page book—fully illustrates the latest styles and models of Fur Coats and Sets and will show you how you can save many dollars on furs. It will pay you to read it. Don't fail to send for it. We will have a free chance of showing this \$300.00.

Be sure to address as follows:

Have Hair That Won't Blow Off

There is a feeling of comfort and self-assurance in the thought that one's hair won't come off.

Every woman, with reasonably good health, may have that kind of hair provided she will give it care and attention.

The scalp must be kept clean and free from dandruff. For this purpose there is nothing superior to Newbro's Herpicide. Used intelligently, the effect of Herpicide is quickly apparent in the increased life, lustre and luxuriance of the hair.

Beautiful hair and Newbro's Herpicide are almost invariably associated. Herpicide eradicates dandruff, checks falling hair, stops itching of the scalp. The odor is delightful.

Guaranteed by The Herpicide Company, Dept. 151R, Detroit, Mich. Send ten cents for trial size bottle and booklet. Sold everywhere. Applications at the better barber shops.

ASQUITH ACQUITS LLOYD GEORGE OF ANY COMPLICITY

Declares, However, That the Campaign Brought Downfall.

REMAINS LIBERAL LEADER

Will Sit With Opposition in New Government, He Announces.

LONDON, Dec. 8.—Herbert H. Asquith declared at the meeting of Liberals today that although he had resigned the premiership he had not given up leadership of the Liberal party. The former premier, who looked remarkably well, said there had been a carefully engineered campaign against him, but he acquitted Mr. Lloyd George and his other associates in the retiring government of complicity therein.

On Friday of last week, Mr. Asquith said, he received Mr. Lloyd George's proposal for a smaller war council. The same day he replied that the prime minister must provide over such a body, Mr. Lloyd George did not agree to this, and on Sunday the Unionist ministers intimated they had had a meeting at which they decided they could not remain in the Government if he did, and that if he did not resign they would. He saw Mr. Lloyd George later and, being desirous of maintaining unity of the Government, appealed to Mr. Bonar Law to remain in office. They had a conversation at which he attempted to accommodate their views as to the relationship between the premier and the war council, and as to the personnel of the council. One of these two points they disagreed, and the difference of opinion was strong and sharp.

Breach of Confidence.

An arrangement was then suggested that the premier should control the war policy of the Government, that he would submit to the cabinet his decisions to him and that the agenda of the war council should be submitted to him. No agreement was reached, and he undertook to write Mr. Lloyd George the next day, giving his decision in the matter. The next morning he found a statement in the newspapers that the premier was to be excluded from the war council. He believed there had been a breach of confidence, although he accepted Mr. Lloyd George's disclaimer. He was Mr. Lloyd George that he was not prepared to remain in the cabinet as a spectator of the war, and that it was not possible to have a war council without the premier as chairman. After consulting with his friends he resigned.

Wished to End Attacks.

He has since been asked, he continued, why he did not accept a subordinate position. His colleagues were unanimous in advising against it. It was pointed out that if he joined the Government, which he wished complete success, the attacks would continue. Mr. Asquith said he was of the opinion that he could serve the Government to better advantage outside the cabinet, with the sole object of lending such help as I can to the new Government in the great task confronting them. He had advised his colleagues to exercise their own judgment in the matter of joining the cabinet, and had brought no pressure to bear on them. It was humiliating to think that anybody should suggest that he was trying to restrain his colleagues from serving the new Government.

Will Lend Every Aid.

"Above all," Mr. Asquith continued, "I shall do whatever I can to facilitate the task which has fallen into other hands." Viscount Grey then made the announcement that Mr. Asquith would be foreign secretary, and that Lord Robert Cecil would remain parliamentary under-secretary for foreign affairs. There was much applause, when Viscount Grey said that at the beginning of the war he was much struck by the resolute courage of three men—Mr. Asquith, Mr. Lloyd George and Lord Kitchener. Mr. Lloyd George, he continued, was a man of great courage, who never flinched, who had borne his burden, which was a heavy one, all through, with great fortitude. To Sit With Opposition.

Having passed the resolution expressing appreciation of Mr. Asquith's services, recognizing him as leader and offering hearty support to the new Government, the meeting took up a discussion whether the Liberals should occupy seats with the Opposition in the House of Commons. Mr. Asquith said he intended to sit in the front Opposition bench, but that the others could please themselves.

FORMER BARN BOY MAY BE PREMIER'S RIGHT-HAND MAN

Career of Sir Albert Stanley Is a Romance of Success.

[Special to The Advertiser.]

DETROIT, Dec. 8.—The career of Sir Albert H. Stanley is a romance of success, amazing even in Detroit. It is hard for Detroiters who knew him to speak of him as Sir Albert. They knew him too long and intimately as Albert Stanley. It was in Detroit he started his amazing climb. He rose from the bottom, advancing step by step through sheer merit and ability.

Starting as a barn boy in the old Detroit Railway Company, weighing horse, feed and performing other similar tasks before the electric traction was heard of, Stanley today is reported to be under consideration for a place at the right hand of England's premier in the greatest crisis of that nation.

It was "Jero" Hutchins, president of the Detroit street railway, who first brought Stanley to the front. He took him into the office, and later gave him charge of the Jefferson avenue line, the first to be equipped with electricity. From then on his progress in the D. U. R. was rapid. By 1912 he was too big for the local corporation, and he left Detroit, to become superintendent and five months later general manager of the transportation department of the Public Service Corporation of New Jersey at a salary of \$15,000 a year.

That position gave him charge of practically every railway in that state. He was still young at this time. He was only 20 years old when Mr. Hutchins made him superintendent of the Jefferson avenue line.

Mr. Stanley was twice married, being wed to Miss Grace Lowrey Woodruff of Detroit, two months after his divorce from his first wife.

Mr. Stanley was twice married, being wed to Miss Grace Lowrey Woodruff of Detroit, two months after his divorce from his first wife.

Studebaker
"The Car of the Golden Chassis"

The World's Largest Manufacturers Of Fine Cars

THE NEW SERIES 18 CARS

With Seven New and Exclusive Features

THE DAY OF HIGH PRICES FOR FINE CARS HAS PASSED

STUDEBAKER NEW SERIES 18 CARS, with seven new, special and exclusive improvements are FINE CARS, warranted by us to completely satisfy the most particular and fastidious persons. We believe these cars represent the greatest automobile values ever offered to the buying public, and that persons accustomed to paying \$2000 or \$3000 for cars will, upon examination, concede that these Studebakers equal ANY such cars in quality of material, design, workmanship and finish, and also concede the truth of our statement that THE DAY OF HIGH PRICES FOR FINE CARS HAS PASSED.

Studebaker has centered its great resources and experience on ONE BASIC DESIGN, with all parts interchangeable for both the FOUR and SIX, except the motor. One equipment of machinery, tools, character of manufacturing operations and quality of material suffices for both models.

No revolutionary changes have been made in the basic Studebaker design for four years. The same group of EMINENT ENGINEERS AND DESIGNERS are responsible for the evolution of the new Series 18 models, yet the many improvements and refinements adopted as the result of our experience have made these new models decidedly the best cars we have ever produced. They are sold with our guarantee of prompt and efficient service and the replacement without charge for defective parts, if any are developed, within one year from date of sale. We guarantee our cars to give absolute satisfaction, provided they receive the care a highly developed piece of machinery should receive.

The Series 18 cars are leaders in the industry, history makers, which put Studebaker in the lead with new and greater values at popular prices. Studebaker has led the way in nearly every forward step in automobile construction in which the owner profited. STUDEBAKER WAS THE FIRST

- to produce a six-cylinder car selling for less than \$2000;
- to produce a 50 horse power car selling for less than \$2000;
- to produce a seven-passenger car selling for less than \$1000;
- to establish a uniform, international service system for owners;
- to produce the now popular crown fenders;

—and, finally, Studebaker was the first manufacturer of FINE CARS to offer its product at medium prices, thus leading the way to greater values and compelling other manufacturers to increase values and reduce prices.

Studebaker has \$13,000,000 invested in the most efficient and modern plants in which it manufactures all of its engines, axles, transmissions, differentials, bodies and tops. Middlemen's profits (parts makers) included in the price of assembled cars and small manufacturers' cars are almost entirely eliminated in Studebaker selling prices. It is necessary to pay from 50% to 100% more than Studebaker prices for cars of corresponding value.

Seven New Improvements and Additions

GUN-METAL FINISH. Original, rich and exclusive finish of deep lustre and permanency, applied in TWENTY-FIVE OPERATIONS. No finer finish is possible than that of the Series 18 Cars. A permanent body finish depends largely on the slow and careful building up of the different coats of color and varnish—the Studebaker way. Fenders and aprons are rich, black enamel.

NEW AUXILIARY CHAIRS. Arm chairs, original and exclusive with Studebaker, patent applied for. These large, roomy and comfortable chairs fold up and slide under rear seat when not in use. They dispense with the unsightly recesses in the tonneau floor and with slat carpets, commonly used in other cars. When these chairs are slid beneath the back seat the Studebaker is a roomy, beautiful FIVE-PASSENGER CAR.

REVERSIBLE FRONT SEAT. Original and exclusive with Studebaker, the front passenger seat is reversible so that passenger can sit facing tonneau or facing forward. Both front seats are covered with leather, have large and handsome robe strap, and are adjustable to all leg lengths. No more comfortable seats are found in any car, regardless of price.
