

Delegates Attending Final London Methodist Conference In Centennial Church

NEW CHARGES MUST BE FILLED ON JUNE 7 CONFERENCE RULES

Small Majority Ensures Adoption of Clause at Morning Session of Methodist Ministers—Plan Allows Men To Be Installed in New Posts Before Consummation of Church Union.

CONFERENCE COMMITTEE IS NAMED

By a small majority the ministers at the London Methodist conference voted this morning to make a conference ruling that all clergymen moved by the stationing committee this session be responsible for their new charges on Sunday, June 7. This decision, expressed the wish of the conference that the ministers be established in their new fields of service prior to the consummation of church union. On the other hand some 90 delegates did not take place until the end of June, but the ruling of the majority prevailed.

Sunday, June 7, was also set as a day in which the clergy were asked to give special attention to the fact that it was a day of final Methodist services and a committee consisting of Rev. D. N. McCamus, Rev. H. J. Uren, and John Elliott was appointed to proceed with the arrangements.

As a result of the presentation on Thursday by Rev. J. W. Graham of a proposed budget system for the first year of union, the following conference committee was appointed: Rev. John Garbutt, convener; H. J. Uren, R. H. Barnby, J. E. Holmes, J. W. Hibbert, and these laymen, Messrs. Austin, B. Holby, H. Fuller, S. C. Chown, John Joynt.

Plans Considered. During the past year a number of meetings were held at which proposals for co-operation with Presbyterian churches were considered, and the report of this committee was heard with interest.

Deputations from the committee have visited the following fields of Presbyterian churches, namely, Dutton, Teeswater, Wroxeter, Guilds, and Sarnia district.

It was the general policy of the committee to encourage churches and circuits to carry on present arrangements for at least another year in order that as many fields as possible may be available for the ministers of the United church who will need to be provided following June 10. It was found, however, that in certain special cases some immediate adjustments were desirable and the committee, therefore, recommended:

Dutton Circuit.—That the Wallace town and Tyroconnet appointments of this circuit be detached and with the Presbyterian union minority of Wallace town be constituted a charge to be served by a Methodist minister.

Oil Springs Circuit.—That the Presbyterian church of Oil Springs be received as a part of this circuit and that the whole be in charge of a Methodist minister.

Oil Springs Circuit.—That the Presbyterian church of Oil Springs be received as a part of this circuit and that the whole be in charge of a Methodist minister.

Oil Springs Circuit.—That the Presbyterian church of Oil Springs be received as a part of this circuit and that the whole be in charge of a Methodist minister.

Oil Springs Circuit.—That the Presbyterian church of Oil Springs be received as a part of this circuit and that the whole be in charge of a Methodist minister.

Oil Springs Circuit.—That the Presbyterian church of Oil Springs be received as a part of this circuit and that the whole be in charge of a Methodist minister.

Oil Springs Circuit.—That the Presbyterian church of Oil Springs be received as a part of this circuit and that the whole be in charge of a Methodist minister.

Oil Springs Circuit.—That the Presbyterian church of Oil Springs be received as a part of this circuit and that the whole be in charge of a Methodist minister.

Oil Springs Circuit.—That the Presbyterian church of Oil Springs be received as a part of this circuit and that the whole be in charge of a Methodist minister.

Oil Springs Circuit.—That the Presbyterian church of Oil Springs be received as a part of this circuit and that the whole be in charge of a Methodist minister.

Oil Springs Circuit.—That the Presbyterian church of Oil Springs be received as a part of this circuit and that the whole be in charge of a Methodist minister.

TO GIVE EVIDENCE IN TRUCK SMASH

Statements of Eyewitnesses and Fire Chief's Report Presented Today.

Evidence of eyewitnesses as well as the fire chief's report will be offered this afternoon to the special meeting of No. 1 committee to inquire into the accident a week ago when a fire truck ran into a private car.

Alderman Frank McKay, chairman of the committee, states that he has written statements from eyewitnesses of the smash, which will be given to the committee at the meeting.

There are said to be new features which will be introduced into the case, and the aldermen are keen to see what will be produced.

One of the aldermen was an eyewitness himself and will probably tell the story of the accident as well as anyone else. So far, he has said nothing publicly, but probably will tonight.

SYPHON SYSTEM DEPENDS ON BOARD

City Solicitor Finds Sewer Expenditure Must Be Authorized by Province.

If the provincial board of health does not grant the mandatory order asked for by the city, so that the city can use the \$30,000 set aside for sewer maintenance, the siphon system for the west end sewer will have to wait until 1926.

Yesterday a committee of the city council waited on City Solicitor Meredith seeking his opinion on the power of the city to act, and found that an order from the provincial body would allow them to use this money after the estimates for the year have been laid.

On these grounds, the committee will recommend the council to ask for this mandatory order at the first opportunity, so that the plan which is urgently needed in London West, will be built this year.

Ten Thousand Children Celebrate Empire Day

Concluded From Page One. The following: Victoria, Rectory and Empress.

Col. Beattie Speaks. The address given by Rev. (Col.) William Beattie, D.D., C.M.G., First Presbyterian church, and a member of the Kiwanis club, at the Centennial college institute on the subject, "British Ideals," sounded the keynote of the whole day's celebration.

Col. Beattie emphasized the honesty, integrity and honor of the ideals and pleaded that young Canada should live up to the ideals of the Empire in their every-day lives.

"If we adopt the ideals of the British Empire," concluded Col. Beattie, "in our attitude and actions, boy to boy, girl to girl, man to man, woman to woman, city to city, province to province, country to country, then we too will be as great as the heritage that has come down to us from the past."

The Empire Day programs in the public schools were carried out as follows:

EMPIRE DAY. Principal James Kirkwood presided over an excellent program at Victoria school. Rev. T. A. Symington, M.A., Knox Presbyterian church, gave the address. Mrs. J. D. Dewar presented the history prizes to Helen Saylor, Ruth Kester and Marion McMurtry.

The I. O. D. E. flag was presented by Miss Eula White, regent of the Princess Patricia chapter.

Miss Ethel Wilder was chiefly responsible for the program, which included the following numbers: Recitation, For England, grade 2; song, There is a Land, grade 6 and 7B; recitation, England, grade 7B; recitation, Hands All Round, grade 5; recitation, The Private of the Buffs, grade 8; song, Memorial Song, grade 8 girls; song, There is a Land, a Dear Land, Mr. Frank Webster; recitation, Dear Canada, grade 1 and 2; violin solo, Billie Bending; song, Dear Heart of My Country, grades 3, 4 and 5; recitation, The Flag, grade 3; recitation, The Colors of the Flag, grade 6; choruses by the school, rule Britannia and O Canada; saluting of the flag and taking of the pledge.

WORTLEY ROAD. Two kindergarten children raised the school flag at Wortley road school this morning, with Principal W. B. Wyatt and Mrs. T. E. Robson awarded the history prizes to Billy Perkins and Fred Brown.

Miss Mary Louhrst, principal, arranged for the program.

KNOLLWOOD PARK. A game of baseball gave plenty of thrills to the afternoon program at Knollwood park. The tussle of the two rival school teams constituted the outdoor part of the celebration.

Small children form the majority at this school, and they presented a pretty sight marching in the parade and waving flags. A number of drills added to the colorful program.

An Empire day talk was given by Klara Glover and Thomas Foulkes. Addresses were made during the afternoon by Rev. Canon C. R. Gunne, Rev. George Watts, Rev. William Beattie, D.D., Kiwanis club, Rev. I. Rutburg, Capt. Charles Foulkes, Administrator G. A. Wheat, B.A., M.C., and Principal William Prendergast of the normal school.

The pupils of the school marched out on the lawn for the program to the accompaniment of drums played by John Brew and Clarence Boxall. Lieut.-Col. F. B. Ware presented the singing, choruses and novelty drills. Boxall, John Brew, Frank Green, Jim Wallace and John Davis.

Other numbers on the lengthy program were: Reading of 35 pages of the Lord's prayer; recitation, Evelyn Munroe; reading, Evelyn Trafford; recitation, Beth Bower; and the history prizes by Mrs. J. Bruce Hunter to Gordon McMehe and Fred Blackledge.

LORD ROBERTS. A short morning program of patriotic talks was held at Lord Roberts school, but the best numbers were saved for the afternoon, when choruses, marches and novelty drills combined to form a program of excellence of which drew tributes from the teachers, parents and visitors.

Appropriate speeches were delivered by Mr. Manning and Harry Murr.

The history prizes were awarded by Russell Morgan by Mrs. W. J. Car-was moved by James Gowan.

A vote of thanks to all those who helped make the program a success was moved by James Gowan.

It Was a Bear of a Meeting For London Kiwanis Club

Gave Bear To Springbank Zoo and Heard Bear of an Orchestra.

ADDRESS, TOO. Dr. Harry Thompson Was a Bear When It Came To Teeth.

In handing you this healthy bear, we ask for his own loving care. Keep him ourselves, we wouldn't dare. But then we know you'll do what's fair.

He's a bear, boys, he's a bear.

Such was the introduction given by Tom Yull when the Kiwanis club bear, a Rocky Mountain one year old, was formally introduced to Commissioner T. W. McFarland, chairman of the parks board, at the weekly luncheon held in the Tecumseh hotel at noon today.

The travels of the club are over, unless he escapes. For some time past he has been travelling from one club to another. Lately visiting Kitchener, Galt and other points. He was not taken out of his crib in the dining-room, though many of the Kiwanians clamored to see him. President J. J. McHale warned, however, that Mr. Bear was in such a healthy condition that he might want to play. He stayed in the box.

Had Lombardo's Orchestra. From the standpoint of entertainment, novelty and education, the meeting was perhaps the best in Kiwanis circles here this year. Guy Lombardo and his celebrated orchestra, offered a splendid program of dance music and songs.

Dr. Harry S. Thompson, head of the department of research in the Royal college of dental surgeons of Toronto, announced that he would trace the history of dentistry, and that he would speak quickly. He did. In one of the liveliest addresses ever heard in London, he told the story of the dentist from the time the blacksmith and corn doctor began to pull teeth 33 years ago, until the travelling dentist in his communities thought of the conservation of teeth.

During the last 20 years dentists had striven to conserve teeth to retain the greatest number of good teeth in the mouth of the patient.

Dr. Thompson showed his hearers with facts and figures covering the rise of dentistry in the last decade. He quoted Dr. William Hunter, a Scot from England, who first bringing to the attention of America the fact that 90 per cent of all diseases came from the mouth. This had brought about a resuming of the extracting methods that had come into disuse from the application of conservation.

The pendulum swung too far the other way in the last few years the first question a doctor asked was concerning the extraction of the teeth.

240 Pounds Bite Pressure. He spoke of the relative merits of the artificial and the natural teeth. The biting power of the normal male's own teeth was a pressure of 240 pounds; his own was 250; the power derived from false teeth was 40 pounds. The power was masticating power, chewing ability.

The diseased teeth were caused by dead nerves, said Dr. Thompson. A dead nerve was an abscess, an abscess meant pus. It was for the dentist to keep the tooth alive.

Embarrassed, Banned, of the Winter Garden, introduced the members of the Lombardo orchestra, saying that they were the only musicians who had gone in body to the United States and received recognition as a first-rate orchestra.

J. J. McHale, president of the Kiwanis club, thanked them for their generosity and welcomed them home from their successes abroad.

Arrangements were made for the trip to Ingersoll, June 3. Thirty cars carrying 100 Kiwanians and their wives will attend dinner and a garden party there.

Twelve volunteers signed up to attend the Y.M.C.A. service Sunday morning.

GEORGE OLIVER FUNERAL TO BE HELD TOMORROW. George Oliver, imperial army war veteran, who took his life yesterday by eating rat poison, will be buried tomorrow at Mount Pleasant cemetery.

Oliver died without friends or relatives. The funeral is being conducted by members of the Great War Veterans association, and Rev. Roy D. Mees, army chaplain, will have charge of the services at the George E. Logan funeral home. Six members of the G. W. V. A. will act as pallbearers.

MACHINE GUN CORPS WILL PRACTICE MONDAY. Chatham, May 21.—Members of the local machine gun corps have arranged to spend Monday, the holiday, at their beach ranges. They will be given an opportunity to practice range-finding, machine gun, rifle and pistol shooting.
