London, July 6.—The Submarine Messenger Journal, devoted to the interest of deep sea grappling, says the Atlantic companies have adopted a certain course which occasions great dissatisfaction and general protest in England. The Government is anxious to increase the facilities of the press, and from this fact the cable companies take a lesson. The press, however, will protect itself, as the press and the public allies and may prove to the end an effective opposition.

The Liverpool Chamber of Commerce has already set the ball going. The present companies pay 10 per cent. to their stockholders, with a growing business. Germany is looking forward to a line which a galled public is in a right temper to encourage.

Though absent he says he will not be separated from his countrymen, and when Frenchmen are willing, we shall welcome, with decent realization, liberty and universal suffrage as our motto. He praises the army and declares his unflinching adhesion to the white flag of Henri Fourth and Joan of Arc which conquered Alsace and Lorraine. The balloon in the Bank of France has increased one hundred millions during the week. The U S Minister at Brussels on the 23rd ult, reported to the State Department that much more residence is just now being experienced by Americans entering France and Belgium with passports. New York, July 6.—The Fourth of July at Tammany Hall was celebrated in the usual manner. It was crowded to its utmost capacity with a democratic throng, with a slight sprinkling of ladies, and now had then a representative of the newly enfranchised element. Mr Tweed first addressed the audience. He said: We propose to let all issues of the past die out, to strike forward into a bright and noble career, to once more place power in the hands of those who have always in past time conducted the general government in a manner satisfactory to the country. Letters from a large number of prominent democrats were read, and among them one from Gov Hoffman which does not endorse the new departure. One from Gen McMullan approving of the new departure. One from Chas Eldridge, Member of Congress for Wisconsin, in which he says it is of small consequence what amendments are made or how they are made or enforced, while the constitution, the very body itself, its genius and spirit, are ignored and discarded.

Chicago, July 8.—A New York special says—The greatest apprehension is felt about the horse disease which seems alarmingly on the increase. It is now believed to be not only an epidemic, but contagious. It is reported that during the week 30 or 40 horses valued at from five to ten thousand dollars each died of the plague, and all horse owners are greatly alarmed for the safety of their property. At present at least 20,000 animals are suffering from the disease which baffles the skill of all the veterinary surgeons. There is little doubt but that the epidemic will spread all over the country and no limits can be set to its diffusion. The disease has increased in violence to more than an ordinary degree within the last two weeks.

New York, July 8.—About 8 o'clock this the 8.15 train from New York and 8.15 train from Newark sighted each other when going along at full speed. Whistles were blown without any diminution of speed and as they approached the switch at Palisades Farm where the railroad runs through, a gravel train had just been switched off and the switch had not been replaced. The trains met each other at the Junction. The New York train ran off, and jumping from the track bounded down the embankment into the ditch, dragging with it the three front cars and smashing them. The down train threw of the tender and engine. The first passenger car was telescoped into the second for 15 feet. In a few minutes subsequent to the terrible calamity it became apparent that the cars and engine were on fire. The flames spread and soon enveloped everything within reach. The greatest alarm prevailed among the passengers. Ladies screamed, men became frightened, some rushed to the doors, while others threw baskets, and in some instances small children, through the windows. The terror was greatly augmented by a report that scores of human beings were in the burning carriages unable to effect—
