feet and the work going ahead famously. Mr. McQuillan is also having a tunnel driven on the Great Divide, which lies next to the Golden Eagle. He is in His firm stand in these troublous times next to the Golden Eagle. He is in twenty-five feet now, following along the vein which is five feet wide. The vein oks remarkably well and he is pleased with the showing so far.

THE harvest thanksgiving services a Colquitz hall last evening attracted quite a number of strangers, and incidentally manifested the fact that those who are A interested in the work of the mission are possessed of enthusiasm and energy peyond the ordinary. The decoration were very praiseworthy, and the music ation of the service by Rev. Mr. Flinton added another attraction to an altogether pleasing festival.

The Full court yesterday delivered Paris says that a French steamship comorder made by the Chief Justice in re- of steamers for service between Havre gard to the Atlas Canning Co. This was and New York. The average speed of an appeal from the order obtained for each steamer will not be less than 22 the winding up of the company's affairs on a petition by Messrs, D. R. Gurk and Wm. Hackett. The order was set aside by the Full court on various grounds, among them that the affidavits were in sufficient and that the petitioners were not entitled to a winding up order, inas-much as a note they held from the comnany did not fall due till a later date than when the petition was made, and also that at the meeting of creditors the petitioners had consented to an extension of time to the company. The winding up order is discharged without costs Mr. L. G. McPhillips, Q.C., for appellants; Mr. L. P. Duff for respondents.

A GENTLEMAN who arrived yesterday from Alberni brought further particulars of the death of John Hirst at English man's river on Friday. When the stage reached Mr. Hirst's hotel, the passengers found that only a minute or two be-fore, Mr. Hirst picked up a cup half full of carbolic acid and drank the poison. He told his wife what he had done, and in a few moments fell uncon-scious from the effects of the terrible dose. The stage passengers arrived at this instant and being told what had occarrel did all that was possible to save the man's life. They rubbed his hands, tried to force milk down his throat, and used what means they could to counteract the poison. It was in vain, however, and in a few minutes Hirst was dead. Dr. Davis, of Nanaimo, was sent for and an inquest was to have been held yesterday afternoon. The case is a particularly sad one as Mr. Hirst leaves behind him a wife with six young children to mourn his death.

REV. J. C. SPEER's reputation as a speaker and the odd title of his lecture, "Creepers, Crutchers and Climbers," drew a full house at the A.O.U.W. hall last night. The audience were not disappointed in their anticipated treat. The lecturer, besides being an eloquent speaker, drew to his assistance a flood of anecdote which aptly illustrated his remarks. He spoke first of the lower animals, showing how the characters in the title of his lecture appeared to different creatures. Then he applied the terms to the character of the human race,
