PHILADELPHIA, January 25th, 1885.

MR. MYERS.

DEAR SIR:—The Food that you sent us for the chickens was received and we find it very good indeed. Previous we have only gotten five eggs a day from twenty chickens and now we get eighteen and twenty, which, you see, is quite an improvement.

S. S. MYERS.

DEAR SIR:—I have about 38 hens, besides 40 "peeps". Two of my hens were so sick that I thought I would lose them, so I commenced feeding them Chick-chick-er-re-kee among their food, and they are now as healthy chickens as I have. It makes them lay better, and the egg-shell is much stronger. None of my chickens have died since I commenced feeding it to them.

Yours respectfully,

THOMAS LIKEN, Grocer, etc.,

PALO ALTO, SCHUYLKILL CO., PA.

S. S. MYERS.

DEAR SIR:—I have used your Chick-chick-er-re-kee for laying purposes, and found it a success. I had three hens from whom I was getting no eggs, penned up with a rooster, and after feeding them Chick-chick-er-re-kee the hens commenced laying.

HENRY SAYLOR, Merchant.

C. S. MYERS.

DEAR SIR:—I write to you about your Chick-chick-er-re-kee. I have tried it and think it splendid for poultry, and believe it will make hens lay. How it is for young chicks I do not know. What would you charge for a hundred-pound-box or barrel? Would it come cheaper than by purchasing it in one-pound-boxes? Yours truly,

SAMUEL K. YODER.

PHILADELPHIA, PA., Oct. 8th, 1885.

S. S. MYERS.

DEAR SIR:—I consider your Chick-chick-er-re-kee to be all you claim. After feeding it to my chickens they all got well. None died since. The one hen that layed soft eggs commenced to lay with shell.

LANSDALE, July 13th, 1885.

S. S. MYERS.

DEAR SIR:—I received your letter asking my opinion of your Chick-chick-er-re-kee, and in reply will give you a little history of my chickens for the last eight months; I could give you the same for the last two years, but it is not worth while. I had 60 hens and 3 roosters in November 1st, 1884. In that month they gave me 201 eggs; in December, 261; in January, 1885, 215; in February 409. About March 10th, I commenced using your Chick-chick-er-re-kee, up to which time I had lost about 8 hens, 5 of which died, and 3 were so sick that they were killed. In March, I got 857 eggs; in April 1029; in May, 988; in June, 843. You see, I was 8 chick-as short when I commenced to use your Chick-chick-er-re-kee. I raised three broods of young chickens in that time, and have had no dead ones, and that is a grand thing, for sick chick-er-re-kee is a nuisance about the yard. Your Chick-chick-er-re-kee is a very excellent chicken food and a good preventative from sickness.

Respectfully yours,

JOHN ANSTRAY.

S. S. MYERS.

Having used your Chick-chick-er-re-kee for three weeks, I feel free to say it is a first-rate article. Before using it, many of my chickens did not lay, and those that did lay were very irregular, and the eggs had soft shells; now we get more eggs than we can use, and the shells perfect. Will want a new supply soon.

CHICK-CHICK-ER-RE-KEE.

the Great Egg Food, produces eggs prodigiously and is good for the health of the Fowls.

To all raisers of common or fancy fowls it furnishes the proper elements of egg production, for shells and yolks, and stimulates, without injury, but with positive benefit, so that the eggs simply are largely increased, and in many cases double in quantity, no medicine but it tones up the system and cures all diseases.
