PHOSPHATINE.
 Toronto, March 20, 1882.
 Messrs. LOWDEN & Co.:
 DEAR SIR,—For the past two weeks I have been using Dr. Austin's Phosphatine in my family with the most satisfactory results. It is unquestionably a most valuable medicine.
 Yours truly,
 W. H. WILLIAMS,
 Special Correspondent Toronto "Globe."

Ayer's Sarsaparilla,
 FOR PURIFYING THE BLOOD.
 This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humours in the system, that undermine health, and settle in troublesome disorders. Eruptions of the skin are the appearance on the surface of humours that should be expelled from the blood. Internal derangements are the determination of these same humours to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humours from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blisters, Boils, Tumours, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Gout, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns. WILL YOU EXCHANGE
 a case of **Dyspepsia or Biliousness** for 75 cents? It is awfully unwise to agonize under the many ailments arising from **Dyspepsia, Indigestion, Disordered Stomach and Liver,** when this offer is made to you in your own home, in all sincerity, with an absolute certainty of curing you.
ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.
 It acts directly upon the **Stomach, Liver, and Kidneys.** Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the **Brain, Nerve, and Muscle,** simply by working wonders upon the **Digestion,** and giving activity to the **Liver.**

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure **Dyspepsia and Biliousness.**

Scientific and Useful.
 PLACE a little soft soap upon the gate and barn door hinges, and stop that fearful creaking every time they are opened or shut. Saturate a piece of cotton cloth liberally with tar and sulphur, place it around the fruit trees, and lessen the work of insects another year.
TOMATO PICKLE.—Take nice, smooth, ripe tomatoes. Cut them in two crosswise. Place a layer in an earthen or stone jar; then a layer of brown sugar. Continue until the jar is filled, having sugar for the top layer. Tie up and put away. They will be ready for use in a month, and will keep as long as they last. The vinegar they make is excellent.

PRESERVING AND PACKING EGGS.—To preserve eggs, dip each one into melted pork lard, rubbing it into the shell with the finger; then pack it in an old fig drum or butter firkin, setting every egg upright, with the small end downward. Eggs thus prepared in August, directly after harvest, have been eaten with relish the following January.

TESTING EGGS.—A French paper gives the following old recipe, for testing the age of eggs, which it thinks seems to have been forgotten: Dissolve 3/4 ounces of common salt in 1 1/4 pints of water. An egg put in this solution on the day it is laid will sink to the bottom; one a day old will not reach quite to the bottom of the vessel; an egg three days old will swim on the surface.

HOW TO TREAT A COLD.—When you get chilly all over and away into your bones, and begin to snuffle and almost struggle for your breath, just begin in time and your tribulation need not last very long. Get some powdered borax, and snuff the dry powder up your nostrils. Get your camphor bottle and smell it frequently; pour some on your handkerchief, and wipe your nose with it when needed.

SALAD DRESSING.—Put one teaspoonful made mustard into the salad bowl and one teaspoonful of sugar, add two teaspoonfuls of salad oil, drop by drop, stirring it well together as the oil is added, or three table-spoonfuls of the thickest, richest sweet cream instead of the oil; then, when well mixed, if oil is used, add four teaspoonfuls of milk (if cream is used, three teaspoonfuls of milk will answer) and two of vinegar. The vinegar is to be added after the milk very gradually, stirring all the time, else the sauce will curdle and be spoiled. When well mixed and as smooth as cream, add cayenne pepper and salt to suit the taste. The ingredients cannot be added too carefully, or beaten too much.

POISON OF TOBACCO.—A rather unusual case of poisoning by nicotine has occurred lately in a Paris suburb. The victim, a man in the prime of life, had been cleaning his pipe with a clasp knife; with this he accidentally cut one of his fingers subsequently, but as the wound was of a trivial nature he paid no heed to it. Five or six hours later, however, the cut finger grew painful and became much swollen; the inflammation rapidly spread to the arm and shoulder, the patient suffering such intense pain that he was obliged to betake himself to bed. Medical assistance was called, and ordinary remedies proved ineffectual. The sick man, questioned as to the manner in which he cut himself, explained the use to which the pocket-knife had been applied, adding that he had omitted to wipe it after cleaning the pipe. The case was now understood, and the patient's state becoming alarming, he was conveyed to the hospital. There the doctors decided amputation of the arm to be the only hope of saving the patient's life, and this was immediately done. His life was barely saved. No wonder smokers so often have sore and poisoned mouths, cancer of the lips, and like troubles.

A POWER IN THE HOUSE OF PARLIAMENT.
 Conspicuous among the influential men of the Dominion is Mr. J. H. Metcalf, member of Parliament from the city of Kingston. Commencing life as a school teacher, he has steadily worked his way upward to the honored position in business and politics we now hold. Coming to a personal matter, we would mention that Mr. Metcalf was formerly subject to extreme soreness of the chest, for which, as he himself says, "I could find no remedy but St. Jacobs Oil, the Great German Remedy." In the following letter Mr. Metcalf gives evidence of his appreciation: "I take great pleasure in stating that I used St. Jacobs Oil for some soreness of the chest, and found it to be an excellent remedy. I would not be without it for any time its selling price. As a family remedy it is certainly has no equal."
