TWENTY AXLES A DAY

M.C.B. Standard 80,000 lb. car axles, including burnishing, is the capacity of the Bertram Double Car Axle Lathe. The strength, speed and power which enable this machine to stand the severest tests in many of the leading car shops of the country have been obtained by over forty years of successful machine tool building. We have facts and data regarding the performance of our Double Car Axle Lathe, and other car and locomotive tools, that will interest master mechanics, master car builders and railway mechanical men generally.
