QUALITY COUNTS..

In our experience as druggists we have always realized that, regardless of everything else, quality is of first consideration. In five years' experience as manufacturers for our fellow-druggists we have proven time and again that quality counts with them also. We make our goods as good as we can first, we sell them as cheaply as we can next, and we then wait for results.

We are aware that between the druggists, their customers and the physicians to whom they may sell our Pharmaceutical Specialties, that we will sooner or later be judged on our merits and that is all we want. Frequently we receive an order for a pharmaceutical specialty accompanied by the statement that the writer can buy from another house at such and such a figure, but that he wants ours and hopes we can meet it. We can't and won't meet all prices, because we won't meet all qualities: but we will always guarantee to sell goods of equal quality at as low or better prices than any other house, no matter which one. We respectfully suggest that a close comparison be made with our goods and others of popular sale. We are willing to abide by any honest and fair decision, and to be turned down if we don't win fairly.
