

What the Recamier Preparations are and why they are to be used.

Recamier Cream, which is first of these world famous preparations, is made from the recipe used by Julie Recamier. It is not a cosmetic, but an emollient to be applied at night just before retiring, and to be removed in the morning by bathing freely. It will remove tan and sunburn, pimples, red spots or blotches, and make your face and hands as smooth, as white and as soft as an infant's.

Recamier Balm is a beautifier, pure and simple. It is not a whitewash, and unlike most liquids Recamier Balm is exceedingly beneficial and is absolutely imperceptible except in the delicate freshness and youthfulness which it imparts to the skin.

Recamier Lotion will remove freckles and moth patches, is soothing and efficacious for any irritation of the cuticle, and is the most delightful of washes for removing the dust from the face after travelling, and is also invaluable to gentlemen to be used after shaving.

Recamier Powder is in three shades, white, flesh and cream. It is the finest powder ever manufactured, and is delightful in the nursery, for gentlemen after shaving and for the toilet generally.

Recamier Soap is a perfectly pure article guaranteed free from animal fat. This soap contains many of the healing ingredients used in compounding Recamier Cream and Lotion.

The RECAMIER TOILET PREPARATIONS are positively free from all injurious ingredients, and CONTAINS NEITHER LEAD, BISMUTH or ARSENIC, as attested to after a searching analysis by such eminent scientists as

HENRY A. MOTT, Ph.D., LL.D.,
Member of the London, Paris, Berlin and American Chemical Societies.

THOS. B. STILLMAN, M.Sc., Ph.D.,
Professor of Chemistry of the Stevens Institute of Technology.

PETER T. AUSTEN, Ph.D., F.C.S.,
Professor of General and Applied Chemistry, Rutgers College and New Jersey State Scientific School.

If your druggist does not keep the Recamier Preparations, refuse substitutes. Let him order for you, or order yourself from the Canadian office of the Recamier Manufacturing Company, 374 and 376 St. Paul Street, Montreal. For sale in Canada at our regular New York prices: Recamier Cream, \$1.50; Recamier Balm, \$1.50; Recamier Moth and Freckle Lotion, \$1.50; Recamier Soap, scented, 50c.; unscented, 25c.; Recamier Powder, large boxes, \$1.00; small boxes, 50c.

HOMESTEAD REGULATIONS.

All even numbered sections, excepting 8 and 26, are open for homestead and pre-emption entry.

ENTRY.

Entry may be made personally at the local land office in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Dominion Lands, Winnipeg, receive authority for some one near the local office to make the entry for him.

DUTIES.

Under the present law homestead duties may be performed in three ways:

1. Three years' cultivation and residence, during which period the settler may not be absent for more than six months in any one year without forfeiting the entry.

2. Residence for three years within two miles of the homestead quarter section and afterwards next prior to application for patent, residing for 3 months in a habitable house erected upon it. Ten acres must be broken the first year after entry, 15 acres additional in the second, and 15 in the third year; to acres to be in crop the second year, and 25 acres the third year.

3. A settler may reside anywhere for the first two years, in the first year breaking 5 acres, in the second cropping said 5 acres and breaking additional 10 acres also building a habitable house. The entry is forfeited if residence is not commenced at the expiration of two years from date of entry. Thereafter the settler must reside upon and cultivate his homestead for at least six months in each year for three years.

APPLICATION FOR PATENT

may be made before the local agent, any homestead inspector, or the intelligence officer at Medicine Hat or Qu'Appelle Station.

Six months' notice must be given in writing to the Commissioner of Dominion Lands by a settler of his intention prior to making application for patent.

Intelligence offices are situate at Winnipeg, Qu'Appelle Station and Medicine Hat. Newly arrived immigrants will receive, at any of these offices, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them.

A SECOND HOMESTEAD

may be taken by any one who has received a homestead patent or a certificate of recommendation, countersigned by the Commissioner of Dominion Lands, upon application for patent made by him prior to the second day of June, 1887.

All communications having reference to lands under control of the Dominion Government, lying between the eastern boundary of Manitoba and the Pacific Coast should be addressed to the Secretary of the Department of the Interior, Ottawa, or to H. H. Smith, Commissioner of Dominion Lands, Winnipeg, Manitoba.

A. M. BURGESS,

Deputy Minister of the Interior.

Department of the Interior,
Ottawa, Sept. 2, 1889.

CASTOR-FLUID

Registered—A delightfully refreshing preparation for the hair. Should be used daily. Keeps the scalp healthy, prevents dandruff, promotes the growth. A perfect hair dressing for the family, 25c per bottle.

HENRY R. GRAY, Chemist,
144 St. Lawrence Main Street.

MATCHED!

"So you want to marry my daughter, do you! and pray, what are your prospects."
"I have none, sir! but ———"
"Neither has my daughter! Take her and be happy!"

HUMOUROUS.

TOO MUCH TO EXPECT.—Brazilian: You have not congratulated us on the founding of free government in Brazil. American (gloomily): I'm a New York taxpayer.

An old veteran, who saw his cigar was annoying a lady near him, asked: "Do they not smoke in your regiment, madam?" "In my regiment, perhaps, but not in my company."

"I'd like a copy of 'The Missing Rope.'" Salesman: I don't know of any such song." "Why, it goes—tum, tum, tumty tum." (Hums the air.) "Ah! you mean 'The Lost Chord.'" "Oh, yes, that's it."

A LITTLE COMMISSION.—She (on board the yacht *Fleetwing*): What are they doing, Lieutenant Goldbraid? He: They are weighing the anchor. She: Oh, are they? Would you mind asking how much it weighs? I am so interested in everything of a nautical nature.

"MOTHER," said a little girl, who was engaged in making an apron for her doll, "I believe I will be a duchess when I grow up." "How do you expect to become a duchess, my daughter?" "Why, by marrying a Dutchman, to be sure," replied the little girl.

At the close of a lengthened and bitter wrangle between a judge and a prominent counsel, the former said, "Well, sir, if you do not know how to conduct yourself as a gentleman, I am sure I can't teach you." To which the barrister mildly replied, "That is so, my lord."

SUNDAY-SCHOOL TEACHER: Children, what lesson do we learn from this verse, "Verily, I say unto you that a rich man shall hardly enter into the kingdom of heaven?" Thoughtful Boy: we learn that it's going to be a good deal harder to get into heaven than it is to get into the United States Senate.

UNCLE BILLY MAGAFFIN (who has been having his portrait painted to present to the Squeecaugan Turtle Club): I wouldn't 'a' minded payin' you \$300 for the pictur, if you'd 'a' worked for the money; but I was a-watchin' you them times when you thought I was asleep, and you jist sat an' looked at me nine-tenths of the time."

MRS. NEWHAND: What! Twenty cents a pound for mackerel? Why, the man across the street only asks sixteen cents! Fishmonger: Very good, madam; but you must remember that my fish are all hand-caught. Those you see opposite are caught in nets. It makes a difference, you know. Mrs. Newhand: Of course, how stupid of me! You may give me that large one there.

OSTRICHES IN AMERICA.

There are certain old traditions about the ostrich which, I have been told by the owner of the California ranch, are fallacious. He says that the ostrich does not bury his head in the sand and imagine he is unobserved by his enemies. On the contrary, he is a very pugnacious bird and always ready for a fight. Nor does the female ostrich lay her eggs in the sand for the sun to hatch them. To do them justice, they are quite domestic, and deserve a better reputation. Nor is the ostrich ever used for riding, as he has an exceptionally weak back; any person might break it with a blow from an ordinary cane.

His strength lies in his great breast and his feet. He has one great claw and a very small one, and with a terrible precision he can bring down the large claw with a cruel force that will tear open anything not made of sheet iron.

Savage birds at best, they are dangerously so during breeding time. The twenty-two birds brought to our California ranch trusted to their instinct and laid their eggs during the California winter, which corresponded to their summer south of the equator. It being the rainy season, their nests were filled with water and the eggs were chilled; so the first season of their American sojourn was a failure.

The ostrich makes its nest by rolling in the sand and scooping out a hole some six feet in diameter, and, excepting an incubator house, the California ranch requires no buildings for the use of the birds, though the land is divided off into pens fenced in, each about an acre in extent, for the use of the breeding birds, every pair occupying one such inclosure.

The ostriches live upon alfalfa and corn. Alfalfa is a grass cultivated all over the ranch; it resembles our clover, and grows to a crop some six times a year.—*St. Nicholas.*
