Indispensable to every live Teacher

Practical Problems in Arithmetic

For First, Second, and Third Classes

By JAMES WHITE, Public School Teacher

EDMONTON - ONT.

This book has been prepared specially to suit the convenience of Public School Teachers. It contains about 700 Practical Problems suitable for First, Second and Third Classes in Public Schools. It is very carefully graded, and each principle required to be taught is introduced in logical order. It receives the hearty approval of Teachers and Inspectors.

Read their Opinions.

From ALLAN EMBURY, Esq., Inspector, Peel.
I have examined this little book of Arithmetical Problems, and can give it an unqualified endorsement. The questions are carefully graded, and are specially suited to the wants of our over-worked teachers who have not always the time to devote to the preparation of exercises upon the various subjects of the school curriculum. The questions are not stated in the form of propositions; but their statement is incidental, leaving the inner connection of the problems to be discovered by the pupil himself; and in this important feature lies their special adaptability as an educational force. I heartily recommend this book to all teachers wishing to economize time and labor in their preparation for ordinary school work.

From E. TROUGHT, Esq., Teacher, Member Council, Board of Examiners, Inglewood.

I have examined with some care Practical Problems in Arithmetic for First, Second and Third Classes, by Mr. White, Edmonton. Without the slightest hesitation I say that they are the best I have ever seen—the best in selection, the best in grading, and above all, the best for developing the reasoning powers of the child, and for exercising his ingenuity. A special feature of the grading is that principles which have been introduced are being constantly made use of in the succeeding problems which are in their turn introducing new principles, so that the whole work may be said to be one unconscious review. It is a great boon to Teachers.

Price, Bound in Cloth, 25 cts.

TORONTO

\$5 SHORTHAND

By mail or individually. \$5 until proficient. We teach Isaac Pitman's system. A system used by 95 per cent. of the Stenographers and Reporters in Canada. Bookkeeping, Typewriting, Penmanship, Commercial Arithmetic, Shorthand, and Commercial Correspondence are the subjects taught. \$5 being the entire charge until proficient. Hundreds of our pupils are now holding positions throughout the Province, as Cashiers, Bookkeepers, Stenographers, Bank Clerks, etc. Over 1,600 students have graduated from this Academy during the past five years, which is equal to the combined attendance of all the Business Colleges in Toronto, during the same period. Pupils assisted to positions. We also have a Music and French department in connection with this Academy.

FIFTH EDITION

OF

Armstrong's Arithmetical Problems FOR

Senior Classes in Public Schools, and Candidates for Entrance to High Schools and Collegiate Institutes.

This edition contains nearly 900 Problems. The Entrance Papers from JUNE 1880 JUNE 1892, both inclusive, are appended, also the Public School Leaving Examination Papers for 1892. The answers to all the Problems are given. No other work possesses these features.

Read What Teachers and Inspectors Say of it:—

I am highly pleased with your Arithmetical Problems for Senior Classes. It suits my Entrance candidates exactly. A book such as this is needed by every Fourth Class pupil.—GEO. KIRK, Head Master M.S., Chatham.

I have just examined your Arithmetical Problems for Senior Classes. The problems are very suitable and the collection must prove very valuable to teachers. I heartily commend it.—G. D. PLATT, B.A., P.S. Inspector, Prince Edward.

After a careful examination of your "Arithmetical Problems for Senior Classes," I find them well graded and very suitable for the purpose intended. The teacher who uses them for home or class work, will save himself a vast amount of labor, and in all probability secure to his pupils much better results.—J. S. DRACON, Inspector, Halton.

I have no hesitation in saying that for the purpose for which it is intended the work is infinitely the best with which I am acquainted. Its strong point, to my idea, is the logical sequence in the problems by which the pupil is almost insensibly led on step by step until he reaches quite a difficult style of question. The printer, too, has done his work very well, and there are but few typographical errors. I shall certainly recommend every teacher in my inspectorate to use a copy.—J. C. MORGAN, M.A., Inspector, Barrie.

Price, strongly bound in cloth, 25 cts.

A REMARKABLE ADVANTAGE

As the great majority of Teachers in our Public and High Schools are Total Abstainers, they will be interested in knowing the very great advantages that are certain to accrue to abstainers, when classed by themselves as insurance risks. To prove this, nothing more is necessary than to state the experience of the United Kingdom Temperance and General Provident Institution, of London, England, which has been as follows:—From 1866 to 1891, inclusive, there have been in its Temperance Section 5,177 "expected" and 3,663 Actual Deaths, and in its General Section 7,663 "expected" and 7,459 Actual Deaths. While in the General Section mortality has been just within the expectation, in the Temperance Section it has been 30 per cent. below the expectation.

The Temperance and General Life Assurance Company is successfully advancing its business on the same lines. If you have not seen its literature, ask for it.
