Toronto Furnace Co.

8 & 10 Queen St. East, - TORONTO

MANUFACTURERS OF

GLIDE MOVEMENT HOT AIR REGISTERS.

FOOTPOWER MACHINERY.

Machines for ripping, cross cutting, scroll-sawing, mortising and
planing, forming boxes, grooving, rabbeting, cutting
grooves, and turning. Holders use our Hand Circular Rip Saw for
the greater portion of their ripping in preference to cutting their
boards to a mill saw mill's drive from their shops. The same
is true in regard to scroll-sawing, mortising, tenoning, cutting stuff
for drawers boxes, etc. Holders using these machines can bid
lower and save more money from their contracts than by any
other means.

Read the Following Letters from Builders
CLARENCE F. LEE, carpenter and builder, Haverstown, N. J. "I have had one of your
Hand Circular Rip-Saws for about three months, and am much pleased with it. I have done the
ripping for 25 houses in that time, which is over four Hand Circular Rip-Saws. I have ripped
as light as 8-inch plank. Table is also good for rabbeting; having rabbeted all joints
and saved all drips for 200 windows."
ALEX. STRONG, line Ohio, says: "A few days since we had some 100 small drawers
to make for a drug store; the steam power mill wanted to cents each for making them.
With my foot power machinery I made them, and saved the above good wages on the job.
If desired, these machines will be sold ON TRIAL.
The purchaser can here ample time to test them in his own shop and on the work
he wishes them to do. Descriptive Catalogue and Price List Free.
