DON'T FORGET

that THE MASSEY MANUFACTURING Co. have recently completed arrangements with Mr. C. E. Patric, of the Superior Drill Co. of Springfield, Ohio, for the manufacture of their

Celebrated "Superior" Grain Drills & Broadcast Seeders

which they will be prepared to supply for the Season of 1890.

The Superior Drills are well and favorably known in all parts of the United States. They embody the best principles, are the simplest, surest, and most easily operated Seeders and Drills known. The newest and latest designs have some entirely original and most valuable features never before introduced, and it was their intrinsic value that induced THE MASSEY MANUFACTURING Co. to add to their regular line these special Seed Drills.

The Combined Grain Drill and Broadcast Seeder is in every sense a "Superior" machine.

The Improved Double Force Feed Grain Distribution used on all the "Superior" Drills greatly excels anything heretofore known.

The New Superior Press or Shoe Drill actually plants the grain, evenly, and at a uniform depth, and presses the earth over it, thus doubly insuring the crop from being uncovered by wind or rain storms.

A Hawk black of high degree  
Scrolled forth to find where there might be  
In fields of wheat, that he could see  
Of prospects good  
in store

2  
The morn was bright  
The sky was fair  
Unto the fields  
He did repair.  
And tilted up he  
Fixed his stare  
This advice AGRICULTURALIST

3  
And peering hard  
He tries to find,  
Some great sprout  
Of goodly kind.  
That farmers love  
To thresh or bind  
But lo! tis all  
A FAILURE

4  
[disgust]  
He turns away in sheep  
And vows the Farmer'll  
Surely "BUST"  
Who sows his seed  
With tools of rust  
In this age of great INVENTION

5  
A neighbour's field  
He soon doth spy.  
And quickly sees  
With practised eye  
The plants that near  
The surface lie,  
Of a harvest  
That will BE,

6  
He hops around  
In wild delight.  
With such a prospect  
Now in sight.  
And thinks the FARMER  
Must be right  
Who puts  
His seed in THUS

7  
With sweetest notes he sings his lay  
And praises loud the present day  
That man hath found another way  
Of "putting in"  
A CROP.
