Send for Estimates and large illustrated Price List Stating Work required to be done.

Steel Rim, Cast Centre Pulleys.

BEST PULLEY IN THE MARKET.

Though 25 to 40% lighter than cast pulleys, are stronger, and will transmit more power. Saving of weight is made in rim when it is most desirable. Joints cannot be broken or chipped in transit. The pulleys' smoothness is preserved by the continuous cast iron inner rim.

PULLEYS IN ALL SIZES.

24 to 60 inches in diameter, any face. Increasing by inches: 60 to 84 inches, increasing by 2 inches; 90 to 144, increasing by 6 inches. All pulleys over 9 feet must be in halves.

MADE SINGLE AND DOUBLE ARM, SPLIT, CLAMP HUB OR SOLID WEL.
