City's Failure to Bring a Permissive Clause Before Legislature Was First Rebuff That Capitalists Willing to Build Competing Car Lines Encountered,

"The question that is still to be solved is: How are the people going to get relief? I do not know whether the Toronto Rallway was advised as to our plans or not; any-way, that is not material. The point is that the public hasn't got the service."

The foregoing statement was made yesterday by the engineer representing the syndicate whose offer to build an independent street railway system did not obtain from Mayor Geary the consideration which, in the opinion of the controlled willing to hack the \$2000 000 capitalists willing to back the \$3,000,000

capitalists willing to back the \$3,000,000 venture, it was entitled to get.

The financiers, altho disappointed with the turn of events thus far, have not abandoned their project. To The World last night, W. C. Chisholm, their solicitor, said the undertaking was not killed by any means, adding that he had been in touch with the syndicate since his letter was discussed by the board of control last week, and that their attitude was certainly not that of withdrawing altogether.

Proposal Was Clear Cut

Proposal Was Clear Cut.
Mayor Geary's statement is that no Mayor Geary's statement is that no definite proposition was ever made until last week. To this the reply of the engineer representing the syndicate is that a straight, clean-cut proposal was laid before his worship, not, it is true, in writing, but as clearly as it could be verbally, and that not once but several verbally, and that not once, but several times. Eearly in the year, he was told clearly and positively what the syndicate was prepared to do, if it got any The World's item yesterday calling on deer hunters to get together and encouragement.

ask the federal government to have the regulation muzzling dogs removed to enable them to take their hounds up north for the fall, had a good effect. They are getting together.

The World also learns that other influences are at work, and it is more than likely that the hunters all over than likely that the hunters all over the federal government to have ship, but facts are facts. He was asked to bring up the matter of putting a clause in the city's bill that would enable the city to allow an independent of the city did not decide to do so. The city was not asked to commit itself in any way beyond that. With that the likely that the hunters all over the regulation muzzling dogs removed to enable them to take their hounds up north for the fall, had a good effect.

They are getting together.

L'Evenement says, however, that when the Irish bishops could not succeed in their efforts against the French-Canadians of the New England States, Bishop Fallon will not be able to do so in the Diocese of London. Instead of finding a friend in the person of their chief pastor, the French-Canadians of the Diocese of London have found an enemy, but they will defend their posi-tion with vigor, and they will triumph in the end.

Something phenomenal in the activ-

IT HAS BEAUTIFUL LAMPS. Editor World: The beautiful branch bank of the Bank of Montreal at the corner of Queen and Yonge-streets, has dcor-post lambs all ready to light. It is a beautiful building, but hardly visible at night.

THE NATIONAL PARTY MUST COME.

We are making political history fast in this country. Much has happened within the past month.

The two old parties are dying here, and in the States. To save themselves, the Republican party in the States (Taft) and the Liberal party in Canada (Laurier) are grasping at reciprocity.

Reciprocity may or may not save the Republicans, but it will certainly benefit the United States. Reciprocity may or may not save the

Liberals, but it will certainly kill Canada and Canadian nationality. It may save the United States at the expense of Canada. This move for reciprocity with the United States is, on this side of the line, the old Commercial Union crowd under a new name—bent on destroying Canadian nationality, merging it into the United States.

Robert Jaffray and The Globe were Commercial Unionists in the early nineties, and they are on the same lay to-day. Rev. J. A. Macdanald as an appeal of pages in a reciprocity program of the same lay to-day.

donald as an apostle of peace is a reciprocity propagandist more than anything else. The Globe has another commissioner off to the United States to manufacture, if he cannot gather, opinion favorable to reciprocity or its other name, commercial union. Taft and Roosevelt are in touch with The Globe office! Of all the dangerous suggestions this one of opening our markets

to the States is the most likely to destroy our nationality. It is time that we had a Canadian national party that believed in Canada's national integrity, in national unity, and an imperial touch with the rest of the empire. What Canada has is worth keeping. Our system of government is

better than the American; our connection with the empire is our greatest asset, and it will grow greater if we do not let the soreheads kill it. Have reciprocity with the States and our nation is destroyed. Our western railways will make for Chicago and St. Paul and for Seattle instead of for Winnipeg, Toronto, Montreal, Halifax. Our control of western trade will disappear, and our factories in the east will have their places taken by towns in the Eastern States.

To-day is the day to say you are a Canadian nationalist, not a continental unionist. And keep your eye open for the apostles of brotherhood and of reci-ocity who are paid evangelists of a United States gospel to-day as they were eighteen years ago.

W. H. ROWLEY. President of the great E. B. Eddy Co., Hull, Que., and the coming year's President of the Canadian Manufacturers' Association.

For the Present, Manufacturers Will Not Go Ahead With Campaign Along Protectionist Lines - Will Wait Till Parliament Meets-Executive Nominations.

VANCOUVER, Sept. 21.—(Special.)— Practically rejecting a resolution to conduct a campaign of education along tariff policy lines, but at the same dme expressing the hope that the Dominion Government would not overthrow the present fiscal arrangements a favor of those more radically making for free trade, the Canadian Manufacturers' Association to-day debated the most important features of the preeent situation with respect to free trade and protection.

"Let us not listen to a sectional, parochial, little meeting of grain growers," said C. S. J. Philips of Montreal, in

said C. S. J. Philips of Montreal, in urging that no discussion of the issues be undertaken at the present time.

Less Sald Now the Better,

"The less said now, the better," remarked A. Saunders of Goderich.

It was in adopting this idea of silence for the immediate present that the convention decided not to make any move towards instructing its traiff committee to go ahead with a campaign along protection lines.

The debate came at the close of the reception of the tariff committee's report. It was to the effect that the committee mentioned undertake the duty of issuing pamphlets, laying the tariff situation before the citizens of Canada, especially those in the agricultural districts, and that a select committee meet their representative body for the purpose of taking up the whole issue.

body for the purpose of taking up the whole issue.

Protection Not Material.

H. J. Waddle of Hamilton proposed the resolution, and R. A. Robertson seconded. While nothing in it specifically stated that protection was to be laid before the people as a desirable policy, yet that was the understanding, and the entire debate was not centred on whether protection was needed or not, but rather as to whether the association should advance protection arguments now, or wait until the opening of parliament before attempting to meet the memorials recently laid before Premier Laurier by the farmers of the middle west.

The supporters of the "wait" idea won, and an amendment to leave the whole question in the hands of the committee to do as was thought best, took the place of the resolution which was withdrawn.

Only one business session was held to-day. Three will be held to-morrow, the closing day of the convention, with a banquet in the evening, following the election of officers and members of the executive council. Ballots have

POTATOES WORTH WHILE

Weigh Nearly Pound Each—Grown at New Liskeard.

Nothing can beat Northern Ontarie in raising potatoes. J. Duncan, 177 East King-st., brought some samples into The World office yesterday, which are nearly a record. They are from the farm of Henry Leng of New Liskeard, New Ontario,

Leng of New Liskeard, New Ontario, and are out of a two-acre patch planted in the second week of June, and, of course, without manure.

Mr. Duncan dug a hill himself, just to assure himself of the bona fides of the tubers, and he got twelve potatoes in the hill, weighing in all 10½ pounds. Another potato from another hill, he added as an illustration of what is possible, and, he says, is frequent. It possible and, he says, is frequent. It weighed two pounds. The first frost was on Sunday last and wilted the

tops ready for digging.
Potatoes are a dollar a bushel. Hay is \$20 a ton, and one farmer has 50 tons. Northern Ontario, says Mr. Duncan, is to be preferred to the west

The potatoes are to be seen in Albert Williams' window, 179 Yonge-st.

TYPHOID AND VACCINATION. New York Tribune: The month of September is the worst in the year for typhoid. Just now there are twice as many cases of it in all the cities as at any other season. This is because the summer vacationists have returned from the country, have brought the rural disease with them, and have spread it to others. It is ever so in the fall, and every health department knows whence the disease comes.

In the last eighteen months twelve thousand men of Uncle Sam's army have been vaccinated for typhoid fever. Of these twelve thousand, only three men have since been attacked by the dreaded scoutge, and these slightly. There has not been a death from the disease in the whole number. In every other block of the army containing twelve thousand men there have been seventy-two cases of typhoid in the same time, and seven deaths. In the fifty thousand unvaccinated there have been three hundred cases and thirty deaths.

FALL IS HERE. The fall hat is in order today for this fall. The Diday for this fall. The Dineen Company have imported some special shipments of English hats, including those by Henry Heath of London, England, who is maker by royal warrant to His Majesty the King. Call at the Dineen Company's store and ask to see the new hat the "King George." It is made by Heath of London.

made by Heath of London.
