THE TRUTH ABOUT ULSTER.

Editor World: As I know your paper to be frank and open on public matters. I will be glad to have you favor this letter with the truth about Ulster with room. To read the press despatches, one would think that Ulster was opposed to all the rest of Ireland, while it is very far from being so. The Nationalists of Irelend elect 84 members of parliament, 10 of whom are Protestants, while the Unionists elect 19 members, none of whom are Catholics. Which side seems most tolerant? Ulster has 9 countles, 5 of which are represented by Nationalists, and 4 by Urlonists, the Nationalists having 16 members and the Unionists representing Trinity College, Dublin. But, while non-Catholics are 59 per cent. of Ulster's population, and Catholics 41 per cent., the Nationalists have a popular majority of over 1000 votes in the province, which conclusively proves that a large percentage of Wester Protestants are Nationalists. Just send us your name and address in full to-day and we will send you with took place restorday a trial package of Stuart's Calcium and Protestant Nationalists (I was assured by Paul's Church to washed the semple and been convinced to the semple and address in full to-day and we will send you and Protestants are Nationalists.
